WHERE: Various Regional Locations throughout Colorado (see chart below)

Purpose

This training is intended to provide an overview of a Multi-Tiered System of Supports (MTSS) framework with a focus on student success. Each of the six MTSS Essential Components will be addressed with practice application of Data-Based Problem Solving and Decision Making. Connections will be made between MTSS, implementation science, and Colorado's legislated educational priorities. Learning activities will help build understanding of MTSS, facilitate reflection on current academic and behavior supports, and assist in the development of action planning steps for MTSS implementation.
