Autism Level 2 Training: Transition

The Colorado Department of Education's Exceptional Student Services Unit (ESSU) is pleased to present a new one-day Autism Level 2 Training – Transition.

This comprehensive training will focus on Autism Spectrum Disorder (ASD) specific transition assessments, planning and preparing the individual with ASD for employment and living environments. Writing meaningful and attainable transition plans for secondary students on the autism spectrum will be covered during the training along with IEPs that meet Indicator 13 transition requirements for Colorado. IEPs that focus on autism specific best practices and educational programming for school and transition-aged students with ASD will be covered during this one day training.

Are your transition plans focused on developing talents for your students with ASD? Thoughts from Temple Grandin and Jed Baker's most recent work on this subject will be addressed on this much needed topic of Transition. This is a great training for practitioners responsible for developing solid transition plans and supports for students with ASD.

This Level 2 workshop is open to all participants who have previously attended the Level 1 Autism Introduction training (two or three day). Those who do not meet this minimum but who have a similar content background are encouraged to inquire for individual enrollment decisions.

Special Accommodations: Please indicate these needs no later than two weeks prior to the workshop. After this time, we cannot guarantee that we will be able to honor your request.

Those who attend the full 7 hour requirement will receive CDE hours and a certificate. Morning beverages and lunch will be provided.

Registration will begin at 8:00 a.m.

Denver/Metro Area
Tuesday, November 5th, 2013
8:30 a.m. – 3:30 p.m.

Pueblo
Thursday, November 7th, 2013
8:30 a.m. – 3:30 p.m.
