Data Resources for Education Stakeholders

Overview

This document provides a snapshot of the various data resources that the Colorado Department of Education maintains to support the work of education stakeholders including Boards of Education, Superintendents, Principals, Teachers, and other community members. The data and reporting resources include the SchoolView system, the Colorado Growth Model, the District Dashboard (DISH), on-line training tools, and other web-based CDE resources.

Data Tools

www.schoolview.org

SCHOOL**view**®

The School View web-page is a one-stop resource for CDE staff, districts, parents and community members to learn about the performance of schools and districts across the state. It is organized into a number of modules that provide specialized data for educational stakeholders.

Data Center
https://edx.cde.state.co.us/SchoolView/DataCenter/
- District & School Data regarding Accountability, Performance, Students, Staff, Finance, Course, and Health Data.

Colorado Growth Model
http://www.cde.state.co.us/schoolview/coloradogrowthmodel
- School and District Growth Reports
- Interactive Growth Visualization Report: Tool to display growth data for Colorado districts and schools by student groups of interest.
- Other Growth-Related Resources

District Dashboard
http://www2.cde.state.co.us/schoolview/dish/dashboard.asp
- View state data for district and school staff to support effective systems analysis and improvement planning.

Data Lab
http://cashew.cde.state.co.us/cognos/cde/datalabreport.htm
- Query the state's achievement and growth data to analyze results by school, district, state, and demographics.

On-Line Training Resources
