

## 2023 PSAT and SAT State Achievement Results

### Interpretation Considerations

- Interpretation of school, district, and state results should be made with caution when participation rates are low and/or representativeness\* is limited.
- Cross-state comparisons should consider differences in participation rates and representativeness\* across schools, districts, and student groups.
- Cross-year comparisons should consider differences in participation rates and representativeness\* across years.

\*Representativeness: how well the demographics of the tested student population mirrored the demographics of the enrolled student population

\*\* Student achievement via Colorado specific performance levels are provided to districts and in CDE's public reports starting with the Spring, 2021 PSAT/SAT administration. The independently determined cut scores for CO's performance level 3 match the College Board's College and Career Readiness (CCR) benchmark cut score. The College Board's CCR benchmark represents a 75% likelihood of a student getting a C or higher in a first semester, credit-bearing college course in that content area. ### Interpretation Considerations

- Interpretation of school, district, and state results should be made with caution when participation rates are low and/or representativeness\* is limited.
- Cross-state comparisons should consider differences in participation rates and representativeness\* across schools, districts, and student groups.
- Cross-year comparisons should consider differences in participation rates and representativeness\* across years.

\*Representativeness: how well the demographics of the tested student population mirrored the demographics of the enrolled student population

\*\* Student achievement via Colorado specific performance levels are provided to districts and in CDE's public reports starting with the Spring, 2021 PSAT/SAT administration. The independently determined cut scores for CO's performance level 3 match the College Board's College and Career Readiness (CCR) benchmark cut score. The College Board's CCR benchmark represents a 75% likelihood of a student getting a C or higher in a first semester, credit-bearing college course in that content area. ## 2023 PSAT and SAT State Achievement Results

### Interpretation Considerations

- Interpretation of school, district, and state results should be made with caution when participation rates are low and/or representativeness\* is limited.
- Cross-state comparisons should consider differences in participation rates and representativeness\* across schools, districts, and student groups.
- Cross-year comparisons should consider differences in participation rates and representativeness\* across years.

\*Representativeness: how well the demographics of the tested student population mirrored the demographics of the enrolled student population

\*\* Student achievement via Colorado specific performance levels are provided to districts and in CDE's public reports starting with the Spring, 2021 PSAT/SAT administration. The independently determined cut scores for CO's performance level 3 match the College Board's College and Career Readiness (CCR) benchmark cut score. The College Board's CCR benchmark represents a 75% likelihood of a student getting a C or higher in a first semester, credit-bearing college course in that content area.
