Spring 2015 CMAS and CoAlt: Science and Social Studies
District Post-test Attempt File Layout
Test Attempt Extract/Test Attempt Update (TAE/TAU)

The district post-test attempt file allows District Assessment Coordinators and Student Enrollment (Data) PearsonAccess users with district level access to extract a student level file that contains all student test records in their district. The Test Attempt Extract (TAE) file contains records for students who were registered for testing during the Spring 2015 assessment administration window. Districts should review this file and upload a Test Attempt Update (TAU) file with any necessary changes made to student demographic fields, Temporary SASIDs, and Invalidation Codes.

Pearson Student ID (BZ) and Test UIN (CA) are used to match records back into PearsonAccess. No changes can be made to these fields.

Refer to the Spring 2015 CMAS and CoAlt: Science and Social Studies Data Supplement for instructions on requesting the TAE file and uploading the TAU into PearsonAccess.

Excel Column	Field Name	Valid Values	Comments	Updateable
District and School Data				
A	Filler		If a value is entered, it will be ignored on the upload. No changes will be made to the data.	
B	Testing District Code	0-9, a-z, A-Z	If the field is changed from the extract, the record will not be loaded into	N
C	Testing School Code	0-9, a-z, A-Z	PearsonAccess and error message will be generated.	N
D	Filler		If a value is entered, it will be ignored on the upload. No changes will be made to the data.	
E	Testing District Name	0-9, a-z, A-Z	District and School names will be generated off the district code and school code information stored in the Pearson database. (These fields may be left blank on an upload.)	N
F	Testing School Name	0-9, a-z, A-Z		N
G	Reporting District Code	0-9, a-z, A-Z	Values should be official and valid district and school codes. If an invalid	Y
H	Reporting School Code	0-9, a-z, A-Z	district and school combination is uploaded, the record will error out. Error must be corrected before upload will occur.	Y
I	Reporting District Name		District and School names will be generated off the district code and school code information stored in the Pearson database. (These fields may be left blank on an upload.)	N
J	Reporting School Name			N
Student Identifying Data				
K	SASID	0-9, the letter 'T'	Updates should only be made using official CDE issued SASIDs. If an official CDE issued SASID is not known, upload the value in the original extract. Error will occur if SASID is already in PearsonAccess. Contact Pearson or CDE for help with this error. Note: If no updates are needed, upload the value that was in the original file to avoid PearsonAccess creating a new record for the student.	Y
L	Local Student ID (LASID)	0-9, blank	Field must be numeric.	Y
M	Student Last Name	A-Z, a-z, space, dash (-), apostrophe ('), comma (,), period (.), 0-9	If maximum length is exceeded, name will be truncated.	Y
N	Student First Name	A-Z, a-z, space, dash (-), apostrophe ('), comma (,), period (.), 0-9	If maximum length is exceeded, name will be truncated.	Y
O	Student Middle Name	A-Z, a-z, space, dash (-), apostrophe ('), comma (,), period (.), 0-9 blank	If maximum length is exceeded, name will be truncated. If uploaded, "NMN" and ".NMN" will convert to blank.	Y
P	Date of Birth	MMDDCCYY Month - values 01 - 12 Day - values 01 - 31	If not a valid value, user will receive an error. Error must be corrected before upload will occur.	Y
Q	Gender	01 = Female 02 = Male	If not a valid value, user will receive an error. Error must be corrected before upload will occur.	Y
Student Demographic File				
R	Grade	040	No update will be made to the Pearson Database.	N

Excel Column	Field Name	Valid Values	Comments	Updateable
		050 070 080	This field may be left blank on an upload.	
S	Hispanic or Latino	0 = No 1 = Yes blank	If the field is blank on the upload and a value exists for the student record in PearsonAccess, the value in PearsonAccess will be retained.	Y
