Pearson Technical Bulletin – October 21, 2014

Technical Updates

Technology Requirements Pages

The online testing requirements pages have moved to a new site: https://support.assessment.pearson.com/display/TN/TestNav+8+Online+Support. This site supersedes the legacy requirements pages. An automated redirect will be implemented on 10/21/14 after 5:00pm CT. Any user attempting to access the legacy requirements pages will be redirected to the home page of the new requirements site.

Java

Testing has completed on Java 1.7 u71 and Java 8. Both versions are now supported with TestNav 8. The updated requirements can be found at https://support.assessment.pearson.com/display/TN/System+Requirements+-+TestNav+8.1. Please note: SystemCheck will fail when run on machines running Java 8. Pearson is working to update SystemCheck; however, a firm date for the SystemCheck update is not available at this time.

Browser Support

The 5/12/14 bulletin titled *TestNav 8, Firefox 29, and Mac OS X versions 10.7, 10.8, and 10.9* has been removed from the new requirements pages at https://support.assessment.pearson.com/display/TN/Technical+Bulletins. For a full list of supported browsers, districts can refer to https://support.assessment.pearson.com/display/TN/System+Requirements+-+TestNav+8.1.

Chromebook Support

The Chromebook requirements page at https://support.assessment.pearson.com/display/TN/System+Requirements+-+TestNav+8.1 has been updated. Chrome OS 35 and higher are now listed as supported versions.
