Subject: *DTC* - Technology Update 12/16/2016

Contact: Collin Bonner, Bonner_C@cde.state.co.us

Dear District Technology Coordinator:

This technology update contains information related to the following topics:

- ACCESS 2.0: New INSIGHT iPad client v7.2
- CMAS: iOS 10.2 is Now Supported
- CMAS: 2017 Site Readiness Pearson TestNav Technical Training Webinar Recording is Available
- CMAS: TestNav Apps for Spring 2017

ACCESS 2.0: New INSIGHT iPad client v7.2

A new version of the INSIGHT iPad client, version 7.2, is available in the Apple App store. If you have a previous version of INSIGHT installed on any iPads used for WIDA student testing, please install this update through the App store. INSIGHT is required for ACCESS for ELLs 2.0 and Screener testing. Users will be required to update when a previous version of INSIGHT is launched.

For further questions about the iPad update, please contact DRC Customer Service at **855-787-9615** or wida@datarecognitioncorp.com.

CMAS: iOS 10.2 is Now Supported

iOS 10.2 was released on December 12, 2016, and is now supported for CMAS testing. The new iOS 10.2 release from Apple resolves the test security issue that was first communicated in the *DTC* - Technology Update 11/09/2016 communication.

Schools and districts with iPads already on iOS 10 should immediately upgrade to iOS 10.2. This upgrade will restore access to CMAS Practice Tests on those devices. No TestNav App update is required. Schools and districts with iPads still on iOS 9 can choose to upgrade now, or to postpone the upgrade. iOS9 will be supported for Spring 2017.

Please note, the current supported versions of iOS for Spring 2017 are:

- iOS 9.3.2 and newer versions of iOS 9

- iOS 10.2 and newer versions of iOS 10

CMAS: 2017 Site Readiness Pearson TestNav Technical Training Webinar Recording is Available

The *2017 Site Readiness Pearson TestNav Technical Training Webinar* recording is available. The recorded training and the PowerPoint slides are available on the Site Readiness Training page (http://www.cde.state.co.us/assessment/dtcwebinars):

- Recording

- PPT

CMAS: TestNav Apps for Spring 2017

The currently available versions of the TestNav Apps will be used for Spring 2017 testing. No new versions of applications will be released until after spring 2017 testing is complete. The TestNav Apps can be downloaded at http://download.testnav.com or through the appropriate online application stores. The table below shows the application version numbers, which were all released in August 2016:

Tool	Version
TestNav Desktop App	1.5.2
ChromeOS App (Chromebooks)	1.5.77
iOS App (iPads)	1.5.1
Android App	1.5.7
Proctor Caching Software*	2016.9
*Note: The new version of ProctorCache is required for the 2016-2017 test administrations. Previous versions **cannot** be used to download and deliver test content.*	

Previous CDE Technology updates can be viewed at http://www.cde.state.co.us/assessment/announcements.

If you have any questions, please contact Collin Bonner at Bonner_C@cde.state.co.us.
