

Take Home Intergenerational Literacy Activity – Consumer Economics Coins

Skills for Children:

2-4 year olds – vocabulary development (coins)
fine motor skills (rubbing and cutting)
following a pattern (repetition)

4-7 year olds – same as above, values of coins, and addition skills

CASAS Competencies:

1.1.6 – Count, convert, and use coins and currency, recognize symbols such as (\$) and (¢)

Vocabulary for Parents:

penny	nickel	dime	rubbing
quarter	coin	collection	tracing

General Instructions:

Make sure that families have scissors and staplers at home for making the booklet. Otherwise, have parents make the booklet at school and take home to their children.

Adults will need directions and explanations for creating the rubbing effect needed for this book.

Often parents enjoy making rubbings and this can be extended into a classroom activity of “Guess What This Is?”

Instructions for Parents:

**Parents: Please work with your child to complete this activity.
Skills that your child is learning in this activity are:**

- ✓ **Vocabulary development**
- ✓ **Fine motor skills**
- ✓ **Following a pattern and repetition**

After the activity:

- **Read the book together frequently.**
- **Encourage your child to find other items that can be rubbed to produce a design. Make a book about them.**
- **Help your child recognize these coins and begin to understand their values.**
