

**May 15, 2025**

Dear Superintendents and BOCES Directors,

This week, we received notification of our **preliminary** Title I-A allocations from the US Department of Education (ED). We are reviewing the information we received from ED and will have your preliminary numbers to you no later than mid-June. Colorado's Fiscal Year 2025 preliminary Title I-A allocation declined slightly due to approximately 3,400 fewer eligible students based on the census data used to determine state Title I-A allocations. We are in the process of calculating all LEA allocations and will share them as soon as possible.

Warm Regards,

Susana Córdova
