

Indoor Air Quality Tools for Schools

Indoor Air Quality (IAQ)

Want to **gain buy-in** to create healthy, green and high-performing facilities?

Take action now and register for the first webinar in a new series –
**Making the Case for Environmental Health, Academic Performance
and High-Performing Facilities**

Thursday, December 11, 2014, 1:00–2:00 p.m. ET
Followed by a live mentoring and Q&A session, 2:00–2:30 p.m. ET

This webinar will:

- Explore the most compelling and motivational evidence for Indoor Air Quality (IAQ) management in schools.
- Highlight the value of creating a green and healthy school.
- Demonstrate return on investment and other results school districts are achieving, such as increased cost savings and improved student performance.
- Identify IAQ issues unique to schools.
- Prepare participants to take action to implement IAQ management plans that address health, academic performance and facility efficiency.

Featured IAQ Experts from the SHIELD Network:

- Tracy Enger, *EPA Indoor Environments Division, Office of Air and Radiation*
- Claire Barnett, *Healthy Schools Network*
- Diane Rhodes, *North East Independent School District, Texas*
- Richard Shaughnessy, *University of Tulsa, Oklahoma*
- David Reisdorph, *University of Tulsa, Oklahoma*
- Dave Hill, *Blue Valley School District, Kansas*
- Dave Blake, *Northwest Clean Air Agency, Washington*
- Victor Melton, *Carrollton-Farmers Branch Independent School District, Texas*

Register today to learn more about how effectively managing IAQ in schools can contribute to a healthier learning environment, improved academic performance, and more efficiently performing facilities.

Announcing the IAQ Master Class Webinar Series

Building Capacity for IAQ Mastery:

Creating Green Clean and Healthy Schools requires mastering the indoor environment using a comprehensive

approach. The School Health and Indoor Environments Leadership Development (SHIELD) Network is a group of diverse stakeholders who, in collaboration with the US EPA, are working toward the Bold Goal of ensuring that all schools have healthy indoor environments.

The SHIELD Network is launching the IAQ Master Class webinar series, which comprises ten 1-hour technical, core competency Web-based trainings designed to build the capacity of school district staff across the county to start, improve or sustain an IAQ management program.

Learn from technical experts, industry leaders and model school districts during these live webinars, which will be followed by 30-minute mentoring Q&A.

Gain Recognition for your knowledge acquisition and commitment to action through certificates of completion for each training. Complete all **10 hours**, and you will be acknowledged with a certificate that recognizes your efforts toward IAQ Mastery as a member of the 2015 SHIELD Network IAQ Master Class (CEUs pending).

Mark your calendar to join the upcoming webinars in the IAQ Master Class series!

Webinar Topic	Webinar Date
Creating Healthy Indoor Environments in Schools: The Knowledge Network and Actions you Need	On-Demand Link Coming Soon (Recorded April 30, 2014)
Making the Case	12/11/14
HVAC Systems	1/22/15
Moisture and Mold	2/12/15
Energy Efficiency and IAQ	3/12/15
Integrated Pest Management	4/16/15
Asthma Management	5/07/15
Cleaning and Maintenance	6/04/15
Materials Selection	7/16/15
Source Control	8/06/15

Miss a live webinar? No worries, all webinars will be recorded and available for future on-demand viewing on EPA's Web site.

Questions?

If you have any questions about the *IAQ Tools for Schools* guidance, please contact the *IAQ Tools for Schools* Connector Coordinator at IAQschools@epa.gov.

EPA offers free *IAQ Tools for Schools* comprehensive resources to help schools maintain a healthy environment in school buildings by identifying, correcting and preventing IAQ problems. Learn more about the *IAQ Tools for Schools* guidance at <http://www.epa.gov/iaq/schools>.
