The following material changes were made to the charter of accounts.

1. Dates, cover page, Financial Policies and Procedures (FPP) Advisory Committee page and Table of Contents page all updated. Adjustments were made to formatting and inconsequential edits to word choice.
2. All “arrows” indicating changes made for the FY 2018-2019 Chart of Accounts have been removed
3. FY 2019-2020 State and Federal Grant/Project Codes Updated
4. All new “arrows” indicate changes that are effective July 1, 2019 (i.e., Fiscal Year 2019-20)

Page 2. The list of funds is updated to include statutory changes and for completeness. Specifically, the full-day kindergarten fund is no longer used. Additionally, added the statutory reference to the “Total program reserve fund.”

Page 2. Completed and renumbered list of funds to match CCR. References to “agency fund” are removed and replaced with “custodial fund.”

Page 3. Added clarification to the “School Code” field. The school code is generally assigned by CDE for each school site. In some cases, school districts requested multiple school codes for a school site. These school codes, if requested, represent grade spans within the school site.

Page 5. Bolded “School Code” as a required element for expenditures. Additionally clarified that Location code is required for all districts.

Page 7. Clarifies that location codes for balance sheet accounts are required for charter schools.

Pages 9 and 10. Unbolded funds 18 and 19 to match formatting throughout the chart of accounts. These funds are optional; activity may be tracked in the general fund.

Page 10. Clarifies that balance sheet code 6724 (Colorado Preschool Program Reserve) is required in any fund used to track CPP activities if expenditures do not deplete CPP revenues plus beginning restricted fund balance.

Page 10. Clarifies that fund 20 is available as a special revenue fund and funds 26 through 29 roll into fund 20. All other funds listed in the special revenue section are isolated separately and do not roll into fund 20.

Page 10 and 13. Clarifies that either fund 06 or fund 46 is required if the district collects revenue by levying the Supplemental Capital Construction, Technology and Maintenance Fund mill.

Page 11. Added fund 07 (Total Program Reserve Fund).

Page 11. Unbolded funds 22 and 23 to match formatting throughout the chart of accounts. These funds are optional as the activity may be tracked in the general fund.

Page 14. Unbolded internal services funds to match formatting throughout the chart of accounts. These funds are optional; activity may be tracked in the general fund.

Page 14. Updated language for fiduciary funds throughout the handbook and chart of accounts for proper coding for the implementation of GASB Statement No. 84. Districts are encouraged to review current fiduciary funds to ensure proper purpose and coding. Presumably, many existing pupil activity and scholarship funds would not have a separate trust document and would not meet the definition of custodial funds. The activity in these funds may be tracked in either the general fund or a special revenue fund.
