- To have a good experience it is suggested that the devices being used to attend be connected via hard wire to the network. If this is not possible try and get to a location where the Wi-Fi or cellular connection is strong.
- Your device should have a working camera, speakers, and microphone.
- You can mute both your audio and video while in the conference if you wish.
- We have found some people's microphones and cameras may not work due to permissions in Windows.
- Be sure and check those settings before you join the conference.
- You can do so by typing "Camera Privacy Settings" in the windows search window of the taskbar.
- Jeffco will start the meeting about 15 minutes early, no one can join unless the meeting is started.

Presently Jeffco has a 200-participant limit in Webex, we are working with Cisco to try and raise the limit to 1000 by the time this meeting takes place. If for some reason you are unable to join, we have worked out a way to LiveStream the meeting like we used to before COVID-19.
