

## **IDEA, Section 619 Preschool Allocations, Fiscal Year 2009-10**

- Column 1 – Each administrative unit and State operated program receives a base amount, which remains constant over time, except for changes in administrative unit configurations. This is the allocation each administrative unit and State operated program received for fiscal year 1997-98.
- Column 2 -- Eighty-five percent of the dollars above the base amount are allocated according to the numbers of elementary and secondary students within the boundaries of each administrative unit. This includes students receiving educational services from the administrative unit or State operated program, as well as students in private and parochial schools, and students in eligible facilities that are located within the boundaries of the administrative unit.
- Column 3 -- Fifteen percent of the dollars above the base are allocated according to the numbers of children living in poverty within each administrative unit.
- Column 4 --- This is the total amount that the allocation formula generated for each administrative unit and State operated program for fiscal year 2008-09.
