Maker Resources

Online

- create@cvl-lists.org – Listserv run by the Colorado State Library

- http://create.coloradovirtuallibrary.org – Creation and Learning site from the State Library. Find programming ideas, maker resources, and a list of software ideas.

- http://oedb.org/ilibrarian/a-librarians-guide-to-makerspaces/ - awesome list of helpful online links

- http://www.libraryasincubatorproject.org/ - collaboration between artists and libraries, excellent resource for programming ideas

- http://makerspace.com/playbook - free guide to starting up your own makerspace

- http://makezine.com/ - online version of *Make* magazine, loads of project ideas, helpful blog posts, tons of how-to's

- Thingiverse – 3D models shared by community members and available for download. Warning: this is the ultimate online rabbit hole.

- http://learn.adafruit.com/ - free tutorials (geared towards adafruit products)

- https://learn.sparkfun.com/ - free tutorials (geared towards SparkFun products)
