

## Creating an Individualized Principal Preparation Plan

Pursuant to *CRS 22-60.5-305.5*, individualized principal preparation plans allow for school districts and BOCES to hire a person on a principal authorization to serve either as a principal or an assistant principal.

- Created collaboratively by the hiring district/BOCES and the individual, these plans allow for targeted preparation based on an individual's leadership strengths and opportunities for growth and development.
- In order to participate in alternative preparation, the qualifying candidate must be required to hold a principal license to fulfill the responsibilities of the position and be under the supervision of a Colorado professional principal license-holder.
- The hiring district/BOCES is responsible for providing support services and training and may partner with a third-party organization if desired.
- All individualized plans must be vetted by the department **before** an individual will be eligible to apply for a principal authorization.
- Upon receipt of an application for a principal authorization, CDE will submit the individualized plan for approval by the state board of education prior to issuing the credential.

To submit an individualized plan for consideration:

1. Complete the following template in its entirety.
2. Submit it via email to CDE's [Educator Development](#) team. Once a determination has been made, the candidate will be notified and provided instructions for completing the application for a principal authorization. Upon receipt of the application, CDE will submit the plan to the Colorado State Board of Education for final approval. More information is available in the [alternative principal preparation guidelines](#).

*Please note: This form is an editable pdf with electronic signature fields and other functionality that must remain intact for the plan to be reviewed. **DO NOT print and scan this document for submission.***

**Keep in mind:** *In order to eventually qualify for an initial principal license, one must have three or more years of full-time licensed experience in an elementary or secondary school. Plans should be designed accordingly for candidates who do not have this experience.*
