

Integrated Endorsements Internship/Externship Verification Form

To advance to a Professional CTE endorsement/credential in an **integrated** content area, you must provide verified, successful and relevant internship/externship experience in your related skill area. A minimum of 40 hours are required to advance from the an initial to a professional CTE authorization.

Important: The experience needs to tie to your integrated CTE content area. For example, those with a CTE/ Integrated Math authorization who teach geometry in construction, will need to fulfill internship hours in a construction-related field. Contact the appropriate CCCS Program Director for further clarification, if needed.

Please duplicate this form for multiple employer use as needed. **Note:** This form is not valid unless all the following areas have been completed.
