Colorado

2015-2016

## Principles for Principals: Opportunities for Support

We understand that principals have extremely busy schedules and manage many different responsibilities. This year, one of our goals in the Exceptional Student Services Unit is to provide support for our principals. related to providing quality special education services and standards-aligned instruction for all students with a disability. Thus, the ESSU has designed a variety of information-sharing opportunities for Colorado principals for this school year:

- ◆ **Sept. 24th Principles for Principals** Kick Off—Featuring Dr. David Bateman and Dr. Christi Kasa
- ◆ ESSU will provide a desk reference copy of ***A Principals Guide to Special Education and Leadership for Inclusive Education: What Every Principal Needs to Know*** for registered attendees
- ◆ **Monthly Webinars**
- ◆ **Articles** related to Special Education via occasional email
- ◆ **Office Hours with Dr. Bateman**—an opportunity to ask questions and interact with Dr. Bateman and other principals across Colorado via webinar /conference phone
