Executive Function & Emotional Regulation Training for the School Setting

Come and learn about brain development and how to effectively support students with executive function and emotional regulation issues.*

This information is applicable to students with disabilities (e.g., brain injury, ADHD, SLD, SED, ASD, SLI) and students with complex needs.

***Note:** This is a repeat of the training by the same name provided during the 2016-17 school year.

Trainers:
Heather Hotchkiss, MSW
Nicole Crawford, Ph.D.

WHO: Special Education Directors, Teachers, Mental Health Providers, Speech-Language Pathologists, Related Service Personnel, Consultants, General Education Teachers & Administrators

WHAT: Understand brain development and how to effectively support students of all ages with executive function and emotional regulation challenges.

WHEN & WHERE:

Monday, January 27, 2020 – Pueblo, CO – Pueblo Community College

Friday, February 7, 2020 – Grand Lake, CO – Grand Lake Center

Friday, February 21, 2020 – Centennial, CO - SARC

Space is limited and this training tends to fill up quickly, so please register early. If your plans change, please notify us as quickly as possible.

If you attended this training in 2016-17, you may be removed from our list to make room for first time attendees.
