

Cut Scores to Determine a Significant Reading Deficiency

aimswebPlus

2019–2020

Users of aimswebPlus should use the cut scores shown in the table below to determine a Significant Reading Deficiency (SRD). For each grade and season, students scoring **below** the cut score are identified as having a Significant Reading Deficiency (i.e., students scoring at or above the cut score are **not** identified as having an SRD). During the Winter testing window, Kindergarten students must score below the cut score on at least two of the three measures listed to be identified as having a Significant Reading Deficiency.

	Fall	Winter	Spring
