

Cut Scores to Determine a Significant Reading

Deficiency aimswebPlus Spanish

2022–2023

Users of aimswebPlus Spanish measures should use the cut scores shown in the table below to determine a Significant Reading Deficiency (SRD). For each grade and season, students scoring **below** the cut score are identified as having a Significant Reading Deficiency (i.e., students scoring at or above the cut score are **not** identified as having an SRD). When two measures are listed in a given testing season (Kindergarten Winter and Spring, Grade 1 Fall), students must score below the cut score on at least one of the measures to be identified as having a Significant Reading Deficiency.

	Fall	Winter	Spring
Kindergarten		SLNF: 6 SLSF: 8	SLNF: 20 SLSF: 16
Grade 1	SLNF: 14 SLSF: 11	SORF: 9	SORF: 21
Grade 2	SORF: 17	SORF: 33	SORF: 48
Grade 3	SORF: 34	SORF: 50	SORF: 54
