

Professional Development Description

Name of Entity: Jan Hasbrouck, Ph.D., JH Consulting

Contact Information: janhasbrouck@gmail.com 206-498-0123
611 NW 75th Street Seattle, WA 98117

Summary of Services provided:

I have been working with schools, primarily in the U.S but also internationally, for the past 30 years. The focus of my work is to help schools increase the success of their teachers and specialists who can then improve outcomes for students. My background as a reading specialist and reading coach, and a professor of educational psychology and advisor to state literacy initiatives gives me a lot of **practical** and **proven** ideas to help a school develop an effective and focused PLAN to improvement, target professional development GOALS, help design and provide PROFESSIONAL DEVELOPMENT, and help EVALUATE the outcomes.

My special areas of expertise include:

- Effective instructional strategies for struggling readers;
- Collaborative coaching to deepen and maximize sustained teacher effectiveness;
- Collecting and using data for improving educators' decision-making
- Working with parents to enhance home/school collaboration.

I would enjoy working with a school or group of schools to achieve and sustain reading excellence!
