

Essential Question

How did tuberculosis contribute to establishing the Denver community?

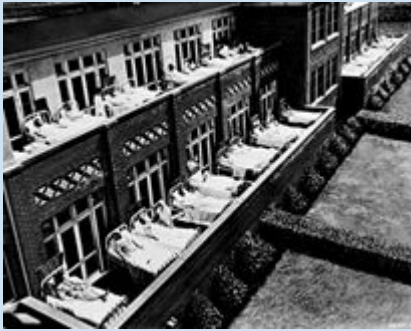

Background Knowledge

- Short lecture on what tuberculosis was and how TB affected people

Source 1

Heliotherapy

Strategy Instructions:

Sourcing
Contextualization
Close Reading
Corroboration

Source 2

National Jewish Hospital

Discussion

1. Why did people sick with tuberculosis come to Denver?
2. Where did sick people go when they arrived in Denver?
3. What did patients' families do when a sick family member came to Denver?

Assessment

Have students investigate the various types of inventions that were direct results of the tuberculosis disease. Students can create a museum exhibit illustrating the impact of TB on Denver's growth and the inventions that came about as a result of the disease.
