**Continuously in District (Enrolled 1 Year)** – Indicates whether a student has been continuously enrolled in the district over the course of the academic year leading up to the administration of annual state assessments. Students who have been continuously enrolled in the district should be coded as '1.' Students who have not been continuously enrolled should be coded as '0.'

CDE has developed new guidance concerning the definition of continuous enrollment to be implemented beginning with the 2015-16 academic year. Under this guidance, students are considered to be continuously enrolled in a district if all of the statements listed below are true. Students failing to meet one or more of these criteria are considered to be non-continuous:

1. The student had an active enrollment record in the district on the October count date.
2. The student had an active enrollment record in the district at the start of the testing window or at any point prior to the end of the testing window.
3. The district code in the student's enrollment record as of the October count date was equal to the district code in the student's enrollment record at the time of the test administration.
4. Between the student's enrollment on the October count date and the testing date, there has been no single enrollment gap within the district lasting 10 or more consecutive instructional days.
5. Between the student's enrollment on the October count date and the testing date, there have not been multiple non-consecutive enrollment breaks within the district cumulatively equaling 10 or more instructional days.

**Date First Enrolled in U.S.** – Date a student first enrolled in any public or non-public US school (not Puerto Rico) in MMDDYYYY format (e.g. 09012001).

1. Districts may zero fill this field, and CDE will calculate the date of first enrollment based upon the date a student first had an entry date in a CDE student interchange data collection.
2. If a date has been entered for a student, CDE will not override that field with a calculated value even though the entered value may not be more recent than the date CDE calculates.
3. Students with an entry type of 14 (entry from another state) as their earliest entry in their educational history may not have this field zero filled.
4. Schools on US military bases count as US schools.
5. Home school does not count as a “public or non-public school.”

**NOTE:**

- Students with an entry code of 05 (entry from another country) and 16 (entry from homeschool) will generate a warning asking a district to confirm the date of first enrollment.
- Student in grades greater than 010 (first grade) will generate a warning if their entry type is 01 (new to educational system) or 06 (entry from unknown educational setting).
- Student’s date of first enrollment will be calculated based on entry type and date in the grades kindergarten and greater.

**Expelled** – This field is used for tracking Expelled students. If a student record is marked as 1 for this field the record will automatically be excluded from school level reporting, but will still be included at the district level.
