

2020-2021 Teacher Student Data Link Interchange

Purpose: The Teacher Student Data Link Interchange (TSDL) file is minimized from 3 previous files (Statewide Standard Course Codes, Course Instructor and Course Enrollment files) into one file. The TSDL file captures data that link students in grades 6 through 12 to courses and instructors (if available) for the reported school year. CDE relies on the TSDL data for the following reporting requirements: student course participation and achievement report, migrant student tracking/reporting, educator preparation program outcomes, and prepopulating the Office of Civil Rights (OCR) report.

Dependencies: Each student has been assigned a Student Identifier (SASID) and updated through the Record Integration Tracking System (RITS). Each SASID is also reported in the Student Interchange for the reporting LEA. Each education has been assigned an Educator Identifier (EDID) and reported as part of the Staff Profile file. The Local Course Code has a corresponding State Standard Course Code as determined at the LEA level.

Record Expectation: In the TSDL file, the LEA should submit one record for each core course and student enrolled for the reporting LEA in the selected school year along with the educator of record and contributing professional if applicable. "Core course" means a course in English, mathematics, science, social studies. For 8th-12th Grade Migrant Students, all courses must be reported. For the OCR report, computer science and all AP courses should also be included.

School Code – A unique code assigned by CDE to a school building. Refer to School Building Code Table at http://www.cde.state.co.us/DataPipeline/org_school.asp.

Local Course Identifier/Code – The identifier designated by the local district for the course.

Local Course Title – The Local Course Title designated by the local district for the course. Note: If there is no difference from the title and the Local Course Identifier, then repeat the value from the Local Course Identifier.

Course Level– The level associated with the course offered.

B	Basic/Remedial – A course focusing primarily on skills development, including literacy in language, mathematics, and the physical and social sciences. These courses typically meet the state’s or district’s expectations of scope and difficulty for mastery of the content.
C	College - A course that is designed to be credit-bearing at a postsecondary institution.
E	Enriched or Advanced - A course that augments the content and/or rigor of a general course, but does not carry an honors designation.
G	General – A course providing instruction in a given subject area that focuses primarily on general concepts appropriate for the grade level. General courses typically meet the state’s or district’s expectations of scope and difficulty for mastery of the content.
H	Honors – An advanced-level course designed for students who have earned honors status according to educational requirements. These courses typically include additional content not found in general courses, and are formally designated as honors courses. (Note: These courses are NOT designated as Advanced Placement or International Baccalaureate. Those courses have a unique State Course Code because they have specific curriculums designated by their organization. Typically AP/IB courses are designated as General for mapping purposes since they have a unique/special course code that already designates their level of rigor.)

Credit – The length of the course in terms of Carnegie Units. A one year course that meets daily for approximately 50 minutes to 1 hour equals 1.00 Carnegie Unit Credit. Base all calculations on 1 hour for 1 year. Therefore, a semester long course that meets for approximately 1 hour equals 0.50 Carnegie Unit Credit. (Note: system requires credits be entered as 4 characters. Example: 1.00 or .050).

Section Number – The identifier designated by the local district for the section for the course.
