

2021-2022 Attendance Snapshot

Purpose:

The purpose of the Attendance snapshot collection is to capture and report the student level attendance information for each school. The data reported in this collection is also used to pre-populate the Civil Rights Data Collection (CRDC) for LEAs.

Dependencies:

The school year has been completed for the Attendance Data File. The student has been assigned a SASID and updated in the RITS system. The student has a record in the student demographics file and the Student School Association Interchange file. All students are expected to be reported and included in the files.

Criteria for inclusion in the Attendance snapshot:

For a SASID to be added to the snapshot it must:

- Be in both the Demographic and Student School Association file
- Be error free in both those files

Pull all error-free records from the Student School Association file that match the following criteria:

- School Code is a valid public school **AND**
- Pupil Attendance Information between 01 and 08 (students attending an educational program operated by the reporting district) **AND**
- Total Possible Attendance Days is greater than or equal 10
- Grade Level between 004 and 120 (PK-12th)
- Entry Date is not the same as the Exit Withdraw Date
- Primary School = 1

The records selected will be joined with data from the Student Profile Table using District Code, School Year, and SASID.

Chronically Absent Status

Indicator if the student was absent 10% or more of the days enrolled in the public school year during the school year. A student is absent if he or she is not physically on school grounds and is not participating in instruction or instruction –related activities at an approved off-grounds location for the school day. Chronically absent students include students who are absent for any reason (e.g., illness, suspension, the need to care for a family member), regardless of whether absences are excused or unexcused. This count would include students in grades K-12.

Calculated using the sum of Total Days Unexcused and Total Days Excused divided by the Total Days Possible. If 10% or greater, then '1', if less than 10% than '0'.
