Date First Enrolled in US: Date a student first enrolled in any public or non-public US school (not Puerto Rico) in grade kindergarten or higher. Date must be entered in MMDDYYYY format.

- Schools on US military bases count as US schools even if the base is in a different country.
- Home school does not count as a public or non-public school.

- <mark>If you enter a date that is later than the date of first enrollment according to CDE's enrollment records, you will receive an error message. In this case, we recommend that you fill this field with 8 zeros and CDE will provide the earlier date.</mark>
- If you do not know the date of first enrollment, you may fill this field with 8 zeros. If information is available, CDE will provide the date of first enrollment.
- If you fill this field with 8 zeros and CDE has no prior enrollment information, you will receive an error message. In this case, use the table below to determine the date to use for date of first enrollment. You may need to work with the District Data Respondent or a school registrar to find the entry type code for a student.

Void Score Reason:

Void Score Reasons should be applied to students whose records have test attempts (i.e., units/sections completed or marked complete) but should not receive scores.

> **NOTE:** If a Void Reason is applied to a student record, the record will **not** receive an overall score. <mark>If the Calculated Invalidation Code is not reflecting the Void Score Reason, check that the student is in Attempt status. Students with a Report Suppression Code should not have a Void Score Reason applied unless the Report Suppression Code is in error (see the instructions on that field for how to update it).</mark>

Report Suppression Code:
Codes used to suppress valid scores from certain types of reporting. This code indicates the reason for suppressing the record. Updates to this field cannot be made during SBD, but CDE will change the suppressions after SBD according to the table below. Blanks are allowed.

Code	Description
01	Student is home schooled and their results should not be included in District and School reporting. To have CDE apply this code to a record, change the Reporting School code to 'HHHH.'
03	Student was not supposed to take a CMAS test because they are in a grade that takes a different assessment but you would still like to receive the student's individual report. If you think you have records that should have this code applied, please contact Jasmine Carey (carey_j@cde.state.co.us).
06	Used for misadministrations caused by registration errors (e.g., text to speech for ELA, taking the wrong test for their grade) or assessment modifications. Misadministrations from student misconduct should be indicated through the Void Score Reason field. This code was applied according to district discussions with CDE. If you believe there is an error and this code should/should not have been applied to a record, please contact Jasmine Carey (carey_j@cde.state.co.us).

Calculated Invalidation Code:

This field combines Test Status, Attemptedness, Not Tested Reason, Void Score Reason, and Report Suppression Code to determine the record's status. Please use this field to check that the correct combination of invalidations has been used where appropriate. You can also see a count summary of this field in the Final Summary Report. This field can also be used to calculate an initial estimate of participation based on your submitted SBD values (final values may change or be subject to review in specific cases). Please use the following chart to find how to adjust the Not Tested and Void Score Reasons to get the correct invalidation type.

Code	Description
Valid Score	No Void Score Reason assigned and Attemptedness = Y or Blank (Records in Attempt Status that have a blank for Attemptedness and no invalidation applied will be assigned either Valid Score or Not Attempted in the final file based on the final Attemptedness)
Absent	Test Status = Assign and Not Tested Reason = 00
Took Other Assessment or Duplicate Record	Not Tested Reason or Void Score Reason = 01 or Report Suppression Code = 03 (Exempt Students in Assign status will be exited in PA Next, Attempt status will be removed from rosters.)
Newcomer to U.S. (Only Applies for ELA)	Test Status = Assign, Not Tested Reason = 02, and Content = ELA (Exempt, will be validated against WIDA ACCESS For ELLs and Date First Enrolled in US)
Interrupted and Not Completed	Test Status = Attempt and Void Score Reason = 02
Withdrew Before or During Testing Window	Not Tested Reason or Void Score Reason = 03 (Exempt)
State Use Only	Test Status = Attempt and Void Score Reason = 10 or Test Status = Assign and Not Tested Reason = 05 (May be exempt depending on the circumstances, will be decided in conjunction with the affected district)
Student Test Refusal	Not Tested Reason or Void Score Reason = 04
Non-Approved Accommodation	Test Status = Attempt and Void Score Reason = 05 (Not valid for CoAlt)
Misadministration	Not Tested Reason or Void Score Reason = 06 or Report Suppression Code = 06
Medical Exemption	Not Tested Reason or Void Score Reason = 07 (Exempt)
Part-Time Public/Part-Time Home School	Not Tested Reason or Void Score Reason = 08 or Report Suppression Code = 01 (Exempt)
Parent Excuse	Not Tested Reason (Test Status = Assign) or Void Score Reason (Test Status = Attempt) = 09 (Exempt with proper documentation)
Not Attempted	No Void Score Reason or Not Tested Reason assigned and Attemptedness = N or Test Status = Assign (Records in Attempt Status that have a blank for Attemptedness and no invalidation applied will be assigned either Valid Score or Not Attempted in the final file based on the final Attemptedness)
