Staff Interchange Process

Overview

The following instructions are provided as a tool to help you download prior year data files for reference, load staff interchange data files into Data Pipeline, review errors, and correct errors in order to continue with the Human Resources and/or Special Education December Count snapshots.

What is the Staff Interchange?

The staff interchange is a set of two files which contain all staff data for a school year. The staff interchange contains the two files: staff profile and staff assignment which collects the staff demographics, background and current assignment(s). This information is used in the following snapshots: Human Resources, Special Education December Count and the Teacher Student Data Link.

Staff Profile: The purpose of the Staff Profile file is to capture and verify the attributes of staff employed at the district for the currently selected school year.

Staff Assignment: The purpose of the Staff Assignment Association file is to capture and verify the location and role(s) of staff employed at the district for the currently selected school year.

Please note: the Human Resources and Special Education December Count collects all General Education staff and Special Education staff employed as of December 1st of the school year by school, district and position. The Teacher Student Data Link references the staff profile file for educators employed throughout the school year. Districts and BOCES complete the Human Resources and Teacher Student Data Link processes. Administrative Units complete the Special Education December Count process.

Structure of Reporting Staff

General education staff is reported by the District/BOCES of location of employment. This would include contracted staff through another entity.

Special Education Staff can be reported by EITHER the district/BOCES of location or the Administrative Unit. This must be determined locally and agreed upon by all impacted entities. If the District/BOCES is reporting the staff member, then the AU should not be report that staff member and vice versa.

Staff Interchange Process

Checklist of Steps

This is a guideline only; you can modify for any additional steps you perform.

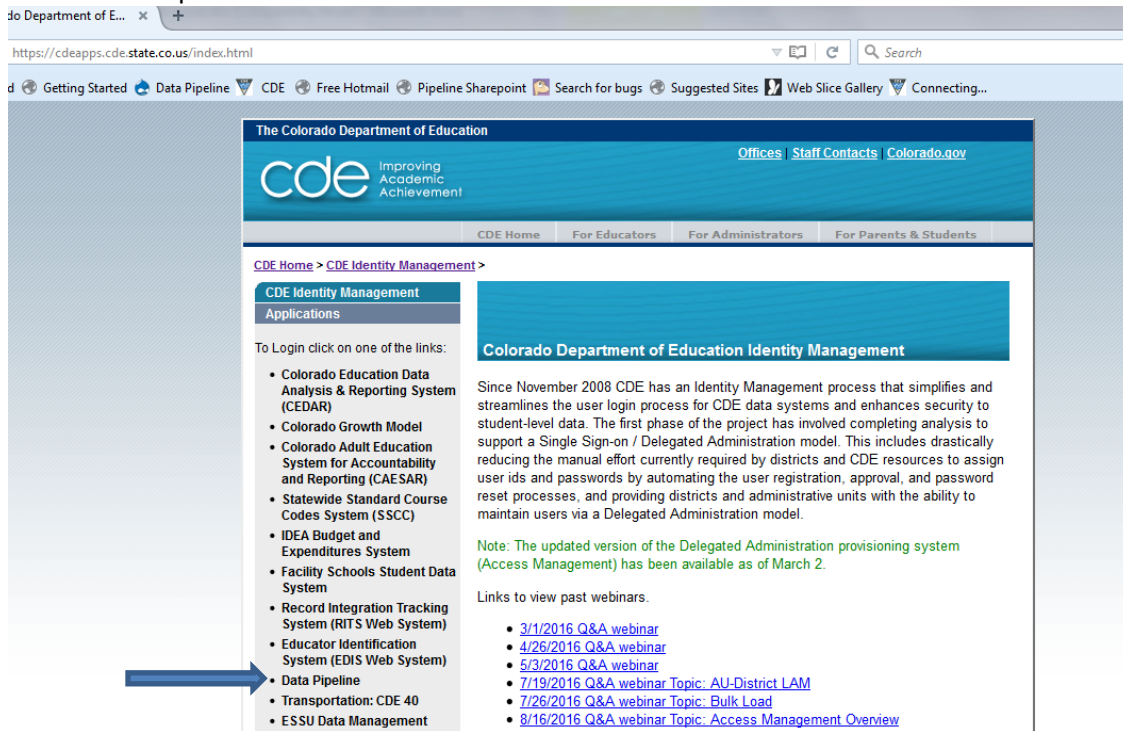

EDIS Process

- Obtain Educator IDs (EDIDs) for all staff - EDIS
- If applicable, update EDIS for legal name change(s)

Note: All staff should have a unique Educator Identifier (EDID). For additional information, please reference: http://www.cde.state.co.us/datapipeline/yr_edis

Identity Management Role

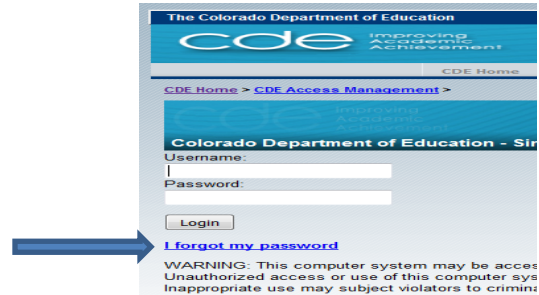

- To download prior year data files, upload and/or edit Staff Interchange files in Data Pipeline, you will need to have a role in [Identity Management \(IdM\)](#) : STF~LEAUSER Submit and Modify Role
 - o You will need to ask your Local Access Manager (LAM) for the necessary rights if you do not have them
*Don't know who your LAM is? Go to: <https://cdx.cde.state.co.us/CDEIdM/districtLAMSUPPORT.jsp> for assistance.
- Access Data Pipeline at: <https://cdeapps.cde.state.co.us/index.html>
 - o Select 'Data Pipeline' in the left tab section

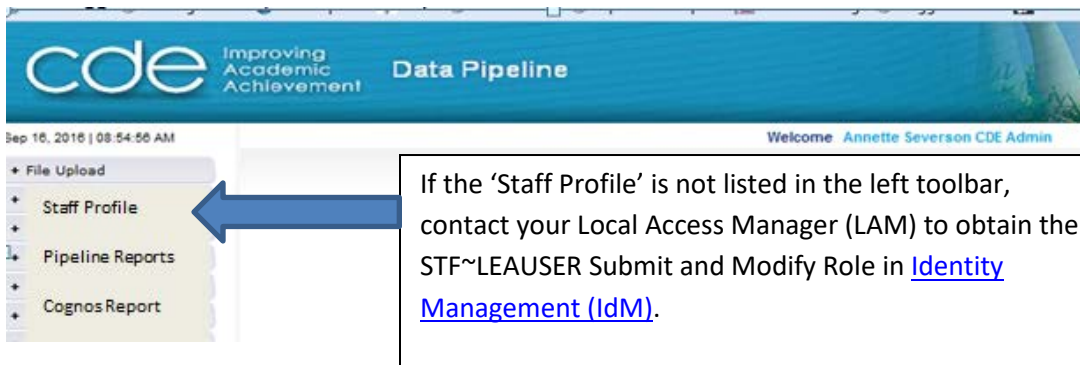

Staff Interchange Process

- Log into Data Pipeline
 - o User Name is full email address
 - o Password is created by you (the respondent)
 - o If password is unknown, use link 'I forgot my password'

- Once logged into Data Pipeline, ensure you have the 'Staff Profile' tab on the left side

Create Data Files

- Review documents which show the file layouts and the definitions of the file elements at http://www.cde.state.co.us/datapipeline/inter_staff
 - o Staff File
 - o Staff Assignment File
- Create or extract from your Staff data source the two Staff files (See sections below entitled "Data Files" and "Naming Conventions" for file naming tips to avoid receiving file load errors):
 - o Staff Profile File
 - o Staff Assignment File
- There are also templates at http://www.cde.state.co.us/datapipeline/inter_staff which have the fields you need to load

Staff Interchange Process

- Optional:* To download prior year data files uploaded by the LEA, Select the “Staff Profile” then “File Extract Download”. These downloaded files need to be updated to match current year file layout process and to reflect current employees at the district/BOCES.

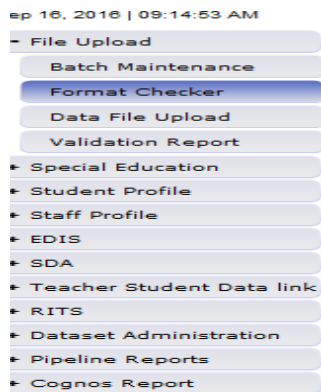

- In the File Extract Download screen:
 - o First select the file type; a) Staff or b) Staff Assignment
 - o Choose the school year needed
 - o Organization/LEA will be pre-populated based on your log in information
 - o Select the batch ID. If there are several options, you may want to download them all
 - o Select the Extract Type; a)Staff Profile or b)Staff Assignment
 - o File Content Type: Choose either an Excel file or CSV file to have the file downloaded in the chosen format.
 - o Click ‘Download Standard Extract’ (green button on the bottom)

File Extract Download

Uploading Data Files

- In Data Pipeline, select “File Upload” then “Format Checker” and upload the file to check the file format (this will only check the 1st record following header row)

Staff Interchange Process

- Dataset=Staff Profile and Assignment; File Type = either Staff or Staff Assignment; School Year would be current school-year; Browse to locate previously created data files and click 'Upload':

Data Element Name	Excel Column	Data Element Length	Original Length From File	Result
Admin Unit Code	A2	5	5	Pass
District Code	B2	4	4	Pass
Ssn Staff	C2	9	9	Pass
Edid	D2	8	8	Pass
First Name Staff	E2	30	5	Pass
Last Name Staff	F2	30	7	Pass
Gender Staff	G2	2	2	Pass
Birth Date Staff	H2	8	8	Pass
Ethnicity Staff	I2	1	1	Pass
Race Indian Staff	J2	1	1	Pass
Race Asian Staff	K2	1	1	Pass
Race Black Staff	L2	1	1	Pass
Race White Staff	M2	1	1	Pass

- Right-hand column displays 'Pass' for fields formatted correctly and 'Fail' for fields formatted incorrectly.
- If all fields display 'Pass' then proceed to upload the data file
- If any field displays 'Fail' then review the file, make revisions to the applicable field(s) and re-upload the file into Format Checker until all fields display 'Pass'.

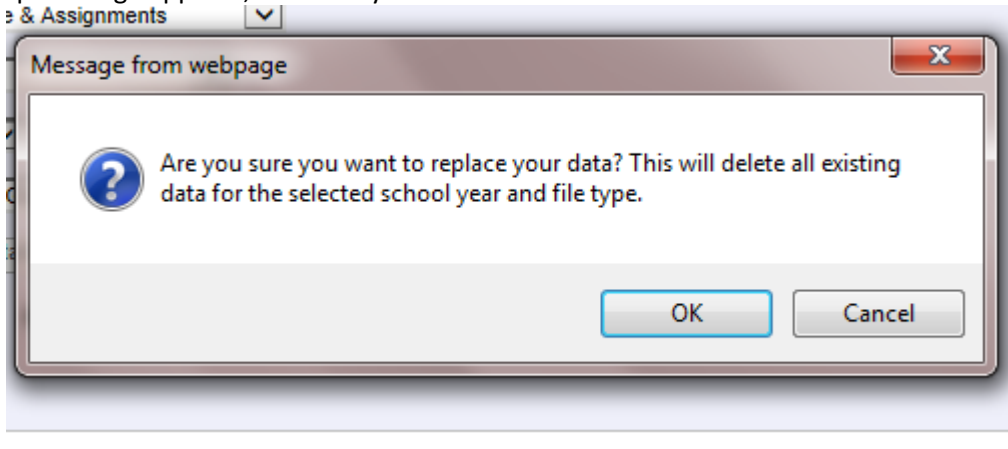

- Upload your Staff Profile file by selecting "File Upload" then "Data File Upload"

- Dataset = "Staff Profile & Assignments"; File Type = "Staff"; School Year = "2016-17"; click "Browse" to locate the previously created file. Choose 'Replace' and then 'Submit'.

Staff Interchange Process

- If a pop-up message appears, click 'Okay'

- Message will display:

Data File Upload

The File Upload request has been successfully submitted. Batch ID for the submitted request is [redacted]. An email will be sent after the processing is complete.

- To determine if file process has been completed and number of errors, there are two options:
 - o First, you will receive an email indicating it completed and noting number of records processed and number with errors [Click here for sample email of Staff Profile file completing](#)
 - o Second, you may review the Batch Maintenance screen. To do so, log into data pipeline and click on File Upload” and select “Batch Maintenance”.
 - In the Batch Maintenance Screen, select the Dataset = ‘Staff Profile and Assignments’; File Type = Staff; School Year = (current year) and click ‘Submit’
 - Additional information will appear which will include [Batch ID]; [File Name], [Record Count], [Error Count], [Processed Indicator], [Submitted User], [Submitted Date] and [LEA]
 - [Processed Indicator] on that screen will have “Yes” if completed and “No” if not completed
 - [Record Count] will display the number of records processed (*verify displayed number is the same as the number of records uploaded in the file*)
 - [Error Count] will display the number of errors in the file. These errors will need to be resolved prior to creating any data snapshots.

Staff Interchange Process

Batch Maintenance

Dataset * File Type * School Year *
 Organization/LEA * Submitted By Me

[Excel](#)

Select	Batch ID	File Name	Record Count	Errors Count	Processed Indicator	Submitted User	Submitted Date	LEA
<input type="checkbox"/>	248984	StaffProfile09142016.xlsx	454	5	Yes	emily_shukert@engschools.net	09/14/2016 02:47 PM	0120-ENGLEWOOD 1

Page 1 of 1 Per Page Total No. of Records: 1

If the file upload did **not** complete the email you received should have the reason.

- o Is there an "Error Details" line near bottom? If yes:
 - Open your file. Go the line number + 1 (1 is the header) and see if you can find the error. There could be an extra comma, incorrect formatting
 - There is an example email below

See section below "[File Error Example Email](#)"

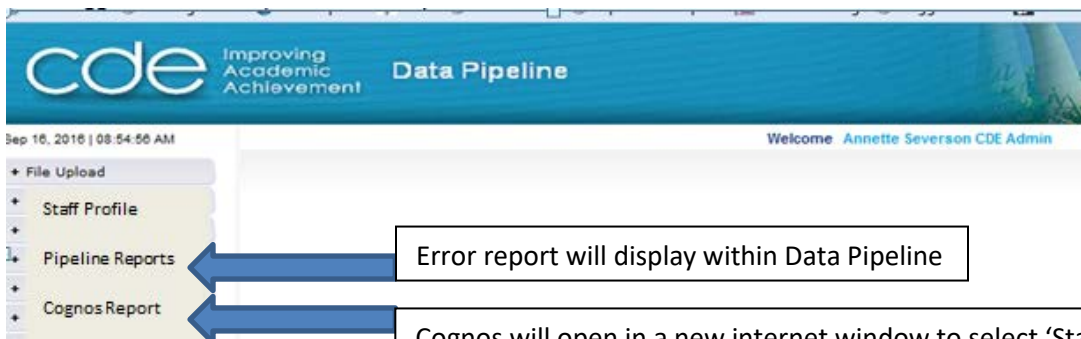

- o Fix problem and continue at "File Upload" step

- Load the Staff Assignment file
Important! Do not load Staff Assignment file until the Staff Profile load is complete

- To determine if file process has been completed and the number of errors; follow the same steps outlined for the Staff Profile above. ([Click here for sample email of Staff Assignment file completing](#))

Review Error Reports

- Review summary errors (if desired):
 - o Data Pipeline -> Pipeline Reports -> Error Reports
 - o Cognos Report -> Staff Profile ->
 - Staff Profile Error Summary Report
 - Staff Assignment Error Summary Report

Error report will display within Data Pipeline

Cognos will open in a new internet window to select 'Staff Profile' and then the appropriate error reports.

Staff Interchange Process

Pipeline Reports:

- Select Dataset = Staff Profile & Assignments; File Type = ‘Staff’ or ‘Staff Assignment’; school year, Organization/LEA will be pre-populated based on log in information and Error Type = ‘Errors and Warnings’, “Errors” or “Warnings”
 - Errors and Warnings will display both errors and warnings found in the file
 - Errors will display only the errors found in the file
 - Warnings will display only the warnings found in the file.

- Review individual records with errors or warnings using Cognos Report:

- Cognos Report -> Staff Profile ->
 - Staff Profile Error Detail Report
 - Staff Assignment Error Detail Report

Public Folders | My Folders

Public Folders > Pipeline > **Staff Profile**

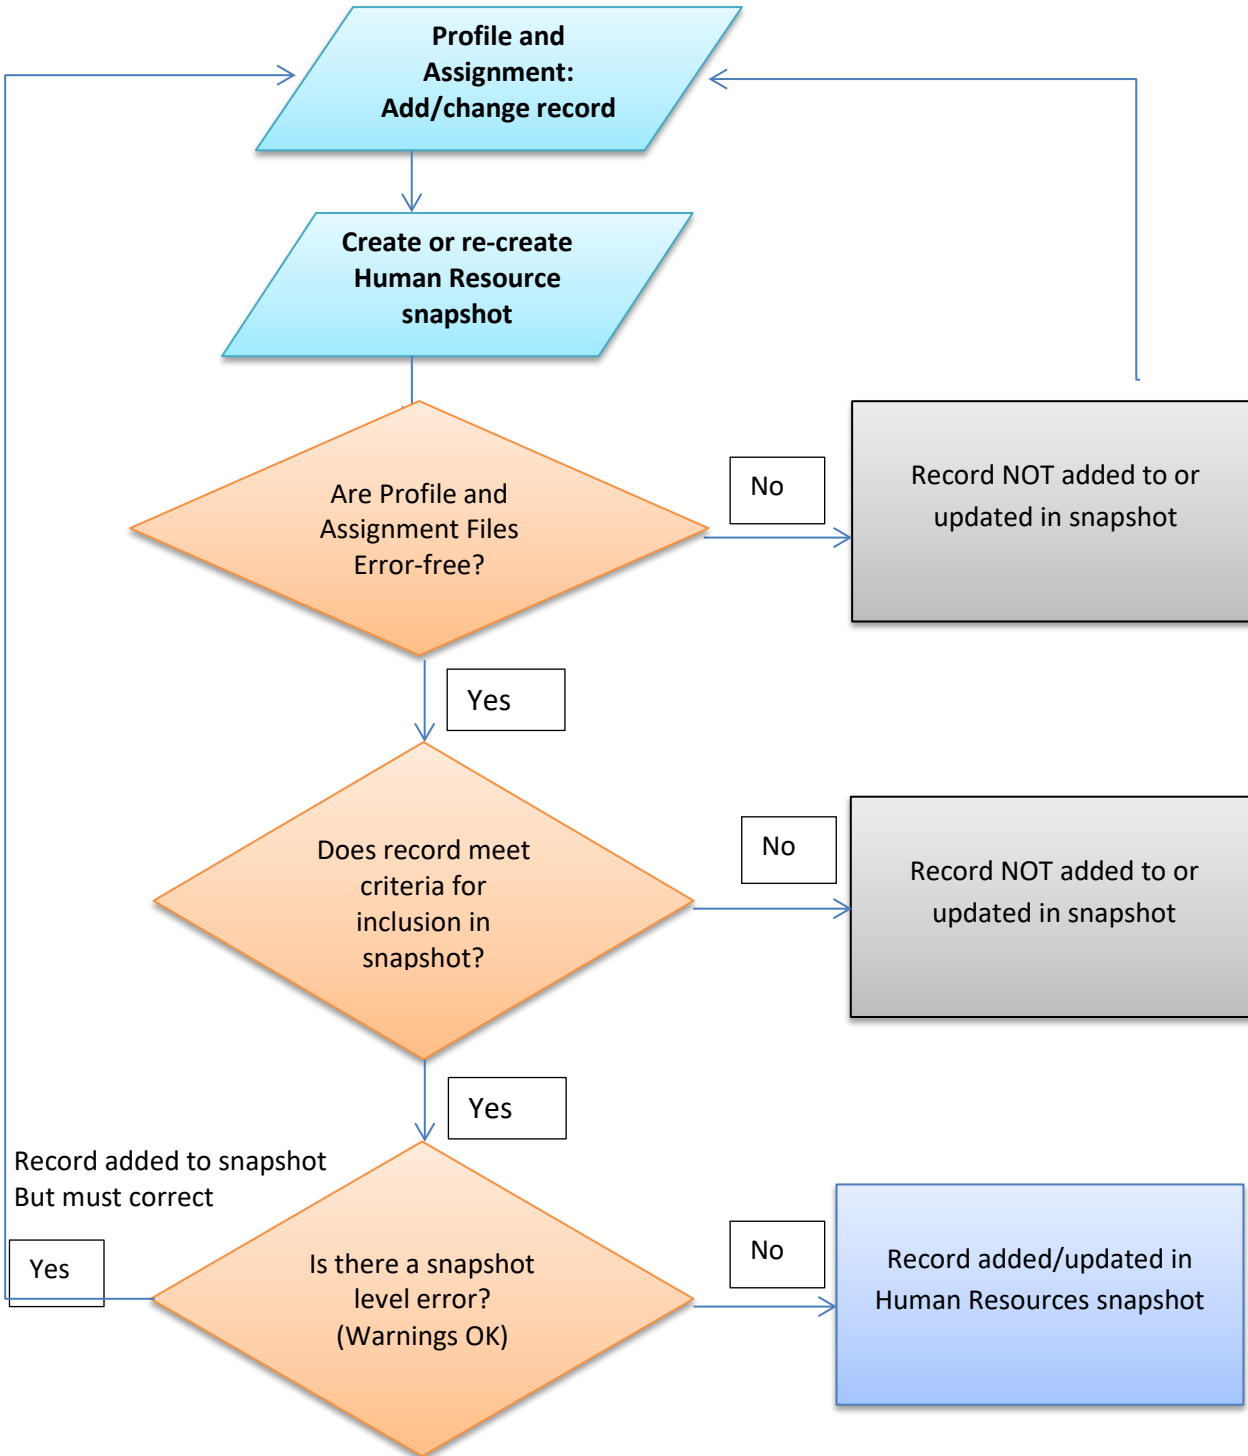

Name
Special Education Salary Matrix Report
Staff Assignment Error Detail Report
Staff Assignment Error Summary Report
Staff Demographics Error Detail Report
Staff Demographics Error Summary Report

- Correct Staff Profile and Staff Assignment errors. Some methods:
 - Correct in your system and then download a new file and re-upload
 - Correct in the file
 - **IMPORTANT** – if it is a text file, edit with a text editor, not Excel

Staff Interchange Process

Flowchart of process:

Staff Interchange Process

Identity Management Roles

Note: For reporting general education staff, all roles will have the 4 digit LEA code and not a 5 digit administrative unit code.

For uploading and editing files: Submit and Modify Role **LEAUSER**

Example:

Staff Profile: WESTMINSTER_50 PIPELINE-0070-STF~LEAUSER Submit and Modify Role

Human Resources: SILVERTON_1 PIPELINE-2820-HRD~LEAUSER Submit and Modify Role

Reviewing data only: Read only role (cannot edit data) **LEAVIEWER**

Example:

Staff Profile: DOUGLAS_RE1 PIPELINE-0070-STF~LEAVIEWER Read-Only Role

Data Files

- Pipeline only accepts file extensions of: csv txt xls xlsx
- You need a header row (in first row)
- Pipeline only accepts field delimiters of: , | ~
- Include leading zeros (0) for required fields (for instance 01 or 02 for gender)
- Non-numeric/non-letter characters (except underscore) should not be included in file names as they can cause problems due to the fact that they have special system meanings. # is one of them.
- Spaces should not be in file name
- Do not edit a text file with Excel; you may lose preceding zeros.
- Remove any blank last lines
- Save files for reference and perhaps re-loading
- **Back-up before editing/changing a file:**
 - Can use backup file if you make a mistake (for instance lose preceding zeros)

Example:

1. Before making any changes to the staff profile file used for Human Resources, [StaffProfile2014_080114.xlsx](#) on 8/16/14, I create a copy of that file, naming it [StaffProfile2014_081614.xlsx](#)
2. I then modify the latter, [StaffProfile2014_081614.xlsx](#)
3. If I make a major mistake to that file (for instance inadvertently delete LASIDs), I can revert back to [StaffProfile2014_080114.xlsx](#).
4. Again before I make any changes, I would first rename it to the current date, for instance, [StaffProfile2014_102614.xlsx](#) and edit that new file.

Staff Interchange Process

Naming Conventions

Highly recommended to have a naming convention for all files loaded to the Staff Interchange
Include versioning so you know what changes have been made to the data

Example:

StaffProfile2014_080114.xlsx (the staff profile file is for the 2014 year and was created/modified on 8/01/14.
