

Data Pipeline Migrant Student Cognos List User Guide

This guide is designed to support Local Education Agencies (LOAs) with accessing their Data Pipeline Migrant Student Cognos List.

Ensure your districts 'Migrant Student List' is accurate and up to date by uploading a current Student School Association file (SSA). Should you have questions regarding your Migrant List, please reach out to your local Migrant Education Programs who coordinate and deliver services to migrant students by accessing this link: <http://www.cde.state.co.us/migrant>. The district must have the STD LEAUSER or STD LEAVIEWER role to see the 'Student Profile' folder in Cognos.

Step 1: Log into data pipeline (<https://www.cde.state.co.us/idm/datapipeline>)

About CDE Identity Management (IdM)

CDE's Identity Management process streamlines the user login process for CDE data systems and enhances security to student-level data. It automates the user registration, approval, and password reset processes and provides districts and administrative units with the ability to maintain users via a Delegated Administration model.

Questions

Use the [password reset form](#), or for other questions, please contact:

1. CDE Identity Manager: CDEIdM@cde.state.co.us

Data Pipeline

About Data Pipeline

Data Pipeline is a streamlined approach to efficiently move required education information from school districts to CDE. Data Pipeline reduces data redundancy, captures closer to real-time data, streamlines the data collection process and allows districts to exchange information on transferred students.
