

COPMS Implementation Guide: All educator evaluations for 2019-2020

Please review the following considerations and apply the guidance related to the necessary steps within the Colorado Performance Management System (COPMS), also known as RANDA, **to successfully close-out the 2019-2020 evaluation cycle** and ensure that you are ready to begin the 2020-2021 cycle with the start of the next school year.

Considerations

- Have you completed all available data entry (i.e., Professional Practices, minimum number of observations, and measures of student learning [MSLs]) for all educators?
- How do the timelines and requirements within the evaluation cycle need to be adjusted to more accurately reflect this year's actions, e.g., number of observations?
- Have any necessary adjustments to district/BOCES policy been made to accommodate this change to the evaluation cycle for the 2019-2020 school year?
- Have the decisions related to the 2019-2020 evaluation cycle, along with anticipated implications for the 2020-2021 evaluation cycle been documented?
- How are you communicating your decisions to your educators and stakeholders?

Steps within COPMS/RANDA

- 1) Determine the basis for educators' final effectiveness rating (FER).
 - a. Professional Practices **and** MSLs
 - i. Complete the evaluation process in the same manner as you have completed the evaluation cycle in previous years.
 - b. Professional Practices **and Modified** MSLs
If guidance/support is needed to adjust your MSLs, please contact your [Regional Specialist](#).
 - c. **ONLY** Professional Practices (no inclusion of MSLs)
 - i. Go to the "Evaluations" page.
 - ii. Enter *each* educator's evaluation through the "Edit" button.
 - iii. Scroll down to the educator's MSL/MSO Worksheet.

This implementation guide is applicable for **ONE YEAR ONLY** related to decisions made by your district for the 2019-2020 evaluation cycle.
