## • Annual Meaningful Differentiation

Due to recent changes made to the form and content of the State's high school assessment (the SAT), the State will revise the cut scores in 2023-24, 2024-25, and 2025-26. For each year, the State will set cut scores using the current and two prior years of data, to equate the scores and account for the changes in spring 2024.

The State has not changed how the Academic Achievement indicator is calculated nor how the indicators in the system are combined to annually meaningfully differentiate among all public schools in the State.
