

School Nutrition Scavenger Hunt

September 5, 2014

Instructions: Individually or with a small group of 2-4 people, review the questions below and provide your best answer. Some answers are in the resources provided and others will be shared after the activity. Have fun!

- 1) When did the interim final rule for *Smart Snacks in Schools* take effect?

- 2) *Smart Snacks in Schools* gave USDA authority to establish nutrition standards for all foods and beverages sold and provided outside of the Federal child nutrition programs in schools.
Circle one- True or False.

- 3) What is the definition of competitive foods?

- 4) Per Colorado law, what times of day must a service that sells food that competes with the federally reimbursed food service program be closed?

- 5) School fundraisers selling foods that are intended to be sold to students and consumed on campus must meet the *Smart Snacks in Schools* food and nutrient standards.
Circle one- True or False.

- 6) How many exempt food-based fundraisers are schools allowed each year?

- 7) Colorado has shifted previous state sodium-level requirements to align with the federal nutrition standards set forth by USDA.
Circle one- True or False.

- 8) The School Lunch Protection Act of 2014 will now reimburse School Food Authorities for the 40-cent co-pay for all lunch meals sold to students qualifying for reduced price for which grade levels?
