

Binational Initiative – The binational initiative was developed to enable those migrant students from Mexico that arrive in the United States, to have access to the same free, appropriate public school education that is provided to other children.

Objectives:

- Ensure that all binational migrant students have continued access to Education in the U.S. and in Mexico.
- Advocate for and ensure that all binational migrant students have equitable opportunities to learn and meet the high educational standards expected of all students.
- Provide Educators with training, which will allow them to better serve the educational needs of binational migrant students.
- Provide support to parents and families of binational migrant students.

There are four components of the BMEI (Binational Migrant Education Initiative):

1. Information and Dissemination:

The goal of this component is design, develop, and disseminate information to enable educators to meet the educational needs of the binational migrant child, to help them Identify a pedagogical model that specifically addresses the instructional needs of the binational migrant child.

2. Binational Teacher Exchange:

The binational teacher exchange is designed to provide a cultural and educational exchange to benefit binational migrant students in the U.S. as well as expertise to educators serving binational students. These direct experiences among exchange teachers result in a better understanding of the cultural, educational and linguistic diversity of Mexico and the U.S.

3. Transfer Document:

The document provides the student his/her grades so that he/she may enroll in school when he/she returns to Mexico or another state. The student's academic credits are understood, thus, the student is placed appropriately.

4. Textbook Donation:

As part of the free textbook distribution program, Mexico's Secretary of Public Education and the Secretary of Foreign Relations (through the Mexican Cultural Center) have provided Colorado with resource books for 1-6 grades, that are used for Mexico's national curriculum, to be a resource for binational students. Mexico's Secretary of Public Education and the Secretary of Foreign Relations through the Mexican Cultural Center have provided us with 39 sets of content area texts (1-6 grades) that

COLORADO
Department of Education

Unit of Federal Program
Administration
1560 Broadway, Suite 1100

they use in their national curriculum. These books have been distributed to all the local Migrant Ed. programs in Colorado so that they may be used with migratory students or during summer school. Colorado schools have also received information on how to solicit these free instructional content area textbooks.
