

# Decision Flow for Benefit Allocation for P-EBT

- ◆ School Level Decision
- ◆ Student Level Decision
- Student Not Eligible for SY Benefits
- Student IS Eligible for SY Benefits

Data collected from the Districts will be compared to Direct Certification data, 2020 October Count data and Child Care data to ensure that students are receiving the maximum benefit allowable based on the best feasibly available data.

The goal is to send the first distribution of benefits to students/families by the end of May and in order to accomplish that, the data must be received from the Districts by April 23 to complete the analysis and distribute the P-EBT cards.
