

PARENT PARTNERSHIP: PARTNERS WITH POWER ARE PARTNERS WHO GIVE

Traut Core Knowledge School attributes our success to our 5-pillar model. The Parent Partnership pillar is the most unique. In partnership, everyone is empowered, everyone does their job, and the results are extraordinary!

‘Never Give Up!’

**Our vision is
educational excellence
in knowledge, skills and
character with strong
parent-teacher-
student partnerships.**

At Traut Core Knowledge School, our parents are fully involved in all aspects of the school, to the point of full partnership (voting) in the decision-making and operation of the school.

The Site Based Management Council is made up of seven Parent Advisory Board (PAB) members and seven Teacher Advisory Board (TAB) members.

Our governance model is sustained by extensively-documented philosophy, policy, and procedure.

We believe that every child’s first and most important teachers are his or her parents, and that our school exists to supplement and support the learning that is started in the home.

Parent empowerment attracts parent partnership and involvement, and parent participation is the best predictor of high student achievement.

TRAUT CORE KNOWLEDGE SCHOOL

Alongside Parent Partnership, four other pillars tie in to round out our approach:
Core Knowledge • Character Education • Mature Literacy • Student Responsibility
