

## **Health Department Notification and Licensing**

When sponsors have chosen their prospective sites, they must notify the health department in writing of all prospective site locations and arrange for prompt and regular trash removal.

Before program operations begin, sponsors must submit to the State agency a copy of the letter notifying the local health department of their intention to provide a food service at specific times at planned sites.

For Licensing requirements notify your county health department.

The state website has a link for a listing of local and regional health agencies:
