

2023 School Nurse Orientation for Colorado School Nurses

Three-Day Online Orientation for Colorado School Nurses

Supporting nurses transitioning to the specialty practice of school nursing is an important priority for the Health and Wellness Office at the Colorado Department of Education (CDE). CDE provides a comprehensive three day School Nurse Orientation Program. This program aims to support nurses new to school nursing by providing educational opportunities and connecting individuals to essential resources. Participants are introduced to essential systems, standards and general role expectations. In addition, participants will gain support through networking with peers and becoming familiar with the state and regional supports.
