## **I. UPDATE ON CSAP RELEASE**

Summer is not always as "idle" as some may think, though I hope yours has been a good one including some well deserved R & R.

As you know, we approach our major release of CSAP test results.

In this, our eighth year of test releases, we follow our familiar sequence. Here is the schedule for the upcoming release:

### **July 23rd (Friday)**

All local districts should access and download their results from the CTB website at the end of this day. Should any last minute issues arise, please directly contact Dianne Lefly (303-866-6997) for data concerns and Beth Celva (303-866-6664) for other matters. As you know, they have already sent you a good bit of material.

ACT will mail the CDs with the results of the Colorado ACT on July 22. Paper reports will be mailed to high schools at the same time. For questions, please call 303-866-6664.

### **July 27th (Tuesday)**

This is the day set aside for briefing key editorial boards.

**IMPORTANT:** Please note that we are giving districts 10 days between your receiving results and our statewide release. Preparing this volume of results for your various audiences is no small task.

The editorial boards, like everyone else, have had to agree to embargo this information until the official statewide release (embargoed until 1:30 p.m. on August 2, 2004).

It should be noted that when we provide results to the newspaper, they get fully disaggregated scores just as you do. As you know, however, a large proportion of these folks prefer to use the simpler aggregated numbers. With the media, “simple” commonly trumps complex. Hopefully, you can give a broader picture to your local press.

**August 2 (Monday)**

The official release of the statewide results will be in the afternoon, at 1:30 p.m., in the Colorado Department of Education lobby. Please do not release your information until that time.

I would reiterate what have been key priorities through every release:

1. Our highest priority will be to ensure that local districts receive their results prior to any statewide release.
2. At both the state and local levels, we need to represent these results in the most honest and positive manner.
3. As important as the results themselves, will be describing how we are meeting the challenges they represent. In that regard, one of the strongest arguments will be the striking progress we are seeing in so many areas.

Sincerely yours,

William J. Moloney  
Commissioner of Education
