

"School Library Hotline" Email List

Join Today!!!

We have some exciting news that we hope you will be able to share with all school librarians and/or anyone affiliated with Colorado school libraries. We are starting a new email list exclusively for Colorado School Librarians, called the "**School Library Hotline**"!!!

This email list will provide support, ideas, collaboration, professional development opportunities and more for school librarians and personnel statewide.

Why are we starting this now? Well...

1. Currently, we have severely limited capabilities of communicating useful, timely, or innovative information to our school librarians throughout the state.
2. We have school librarians who have limited or no central support for when they have pertinent questions that arise. They would benefit from the collective expertise of this group.
3. With budget cuts affecting us yet again this school year, we want to be able to distribute strategies that we hope might be helpful to our constituents statewide.

For these reasons and more, we invite school librarians and/or anyone affiliated with school libraries to join this email list:

www.cvl-lists.org/mailman/listinfo/schoollibraryhotline

Thanks in advance for sharing this opportunity with as many of your constituents as possible. Feel free to email or call with any questions.
