### Overview

- There are four areas of reimbursement available to Colorado school districts
  - o Direct Services
    - Medically necessary services outlined in a student's Individualized Education Plan (IEP) or Individual Family Service Plan (IFSP)
  - o Targeted Case Management (TCM) Services
    - For a student with an IEP or IFSP, activities that will assist the student to gain access to services pursuant to their IEP or IFSP
    - Includes the coordination of access to a broad range of medically necessary services covered under the Medicaid Program to ensure timely and effective care

### Overview

- Areas of reimbursement (continued)
  - o Specialized Transportation
    - Transportation service necessary to provide a client with access to Medicaid services performed in the school or at another site in the community
  - o Medicaid Administrative Claiming (MAC)
    - Offers reimbursement for the costs associated with administrative and outreach activities that support the proper and efficient operation of the state Medicaid program
    - Example: Outreach and Enrollment

### Overview

- In order to participate in any aspect of the SHS program, a district must:
  - Have a Local Services Plan (LSP) approved by the Colorado Department of Education
  - Have a contract with the Department of Health Care Policy and Financing
  - Enroll as a Medicaid provider in the Medical Assistance Program
  - o Participate in the Random Moment Time Study (RMTS)
  - File appropriate financial and statistical reports on a quarterly and annual basis

## Role of the Department/PCG

- The Department of Health Care Policy and Financing and their vendor, Public Consulting Group (PCG) work together to perform many functions of the program:
  - o Random Moment Time Study (RMTS)
  - o Reimbursement to Districts
  - o Program Reviews
  - o Training
  - o Help Desks

# Role of Colorado Department of Education (CDE)

- Assist districts with Local Services Plan development and modifications
- Provide program annual training in cooperation with the Department of Health Care Policy and Financing
- Monitor district allocation of Medicaid reimbursement via CDE Annual Report

## Local Services Plan (LSP)

- Development of LSP every 5 years
- Community input via Health/Wellness Advisory Committee meetings to:
  - o Identify and prioritize unmet health needs of children
  - Determine district LSP budget based on Cost Reconciliation for previous year
  - Assign funding to prioritized unmet health needs
- LSP can be modified yearly as reimbursement increases due to higher RMTS percentages

## Random Moment Time Study

- What is Random Moment Time Study (RMTS)?
  - Random moment sampling is a federally accepted method for documenting time
  - Required mechanism for Medicaid reimbursement by the Centers for Medicare & Medicaid Services (CMS) to determine the amount of time and effort staff spend performing Medicaid school health services and administrative activities
  - Required as part of the annual cost reconciliation process and Medicaid Administrative Claiming (MAC)
  - o Randomly generated 'moments' are equal to one minute

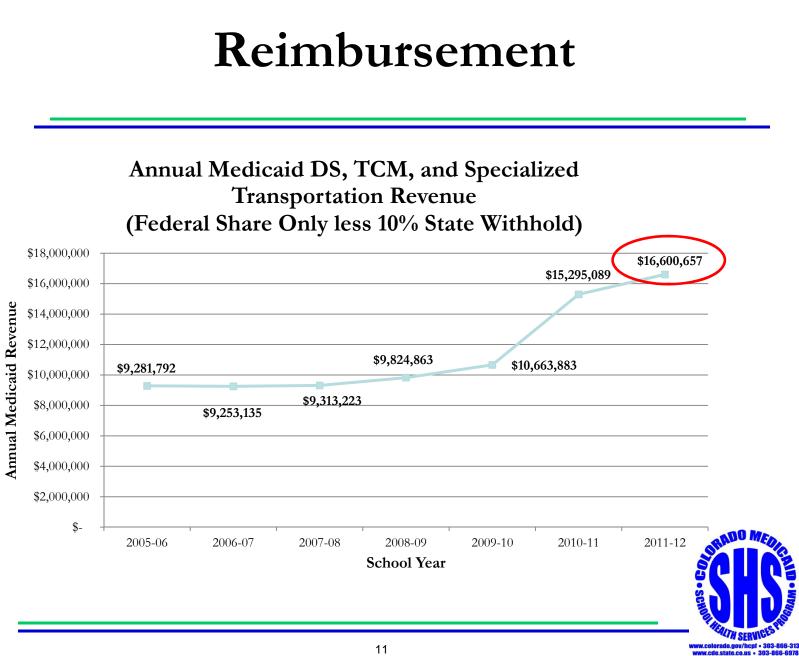

### Reimbursement

- Reimbursement for DS, TCM, and specialized transportation is <u>cost-based</u>
- What does cost-based mean?
  - Districts/BOCES receive interim payments throughout the year for the Medicaid services they provide and these payments are reconciled the next year against their actual costs

# Ces ealth Servi School

### Additional Reimbursement -MAC

- MAC provides reimbursement in addition to funds generated through the cost-based reimbursement methodology
- MAC claims are calculated on a quarterly basis
  - Based on the state-wide time study results for each cost pool
