Re: Horizon Innovation Plan

To Whom It May Concern:

Horizon's Innovation Plan was developed through the collaborative efforts of the building Leadership team comprised of representatives from each grade level, presented the plan to their respective departments for feedback. Revisions were made based upon this feedback and the plan was again presented at an all staff meeting with Sean Dorsey, Sand Creek Zone leader, present to answer questions. At this meeting a date was set for a vote at which an overwhelming majority approved the plan.

Respectfully,

Greg Moles
