

June 24, 2011

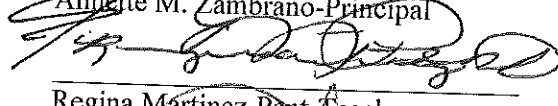

Dear Board of Education,

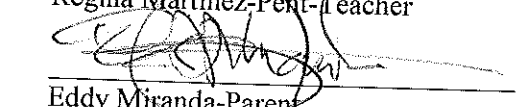

One of the primary functions of the Collaborative School Committee (CSC) is to provide strategic direction in support of Summit Academy's mission to boost student achievement. As members of the CSC at Summit Academy, we believe that seeking Innovation School status will provide our school with the flexibility to design instructional models tailored to meet the needs of each student. We also contend that innovation status will enable us to us to be flexible in our approach to budget considerations and teacher compensation, among other matters.

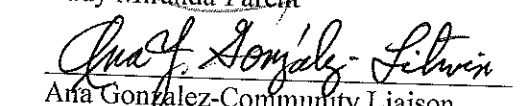

We have read the most recent document dated June 20, 2011 and as CSC members are fully supportive of Summit's efforts to obtain Innovation School status. Accordingly, we look forward to our continued work with faculty, staff and community members as a school governance model. Please do not hesitate to contact committee members with any questions or concerns as they may arise.

Respectfully,

Annette M. Zambrano-Principal
