## **News Release**

### ***Online Programs Office Releases Annual Report***

The Colorado Department of Education's Unit of Online Learning today released "Summary Report of the Operations and Activities of Online Programs in Colorado."

According to statute, online programs in Colorado were required to submit an annual report to the Unit of Online Learning at CDE by Dec. 1, 2008. The unit evaluates, compiles and summarizes the report by Feb. 1 of each year and submits the report to the Colorado State Board of Education and the Education Committees of the House of Representatives and the Senate.

The 102-page report provides information on the activities and structure of single district and multi-district online programs for the 2007-2008 school year along with 2008 October count data. The report provides insight into other areas of program delivery including alignment to the quality standards, demographics and accountability data, curriculum, student support and initiatives, budgets and national trends.

To read the complete report, visit
