4-12 Grade Literacy Instructional Rubrics Reference List

This reference list corresponds with the 4-12 grade literacy instructional rubrics. The reference list is organized into two main sections: cross-category references and rubric-specific references. The cross-category references address skills and knowledge that cross all rubric categories. The rubric-specific references are subdivided by rubric category. However, some references appear in multiple rubric categories; these references have been indicated with an asterisk. Please note that while this list has been divided into categories, many of our references could inform multiple aspects of literacy instruction and apply to other rubric categories even if not explicitly marked.
