For the next meeting of the physical education committee on June 16th, committee members will:

- Draft sample documents that show how structural issues and organization of the physical education standards (such as organization of Evidence Outcomes under the Grade Level Expectations) might be addressed with a focus on improved usability, and use the benchmark report and other feedback to evaluate the size and scope of Evidence Outcomes, with the intent of representing the content with fewer EOs and without footnotes.
- Begin work in next PGCs and standards two and three.
