This unit was authored by a team of Colorado educators. The template provided one example of unit design that enabled teacher-authors to organize possible learning experiences, resources, differentiation, and assessments. The unit is intended to support teachers, schools, and districts as they make their own local decisions around the best instructional plans and practices for all students.

The Colorado Academic Standards for Music are not intended to be taught in a linear (checklist of coverage) fashion, but rather should be implemented as a cyclical creative process. Each unit within this sample blueprint intentionally includes standards from all four music standards to illustrate this process-based philosophy.

Colorado Teacher-Authored Sample Instructional Unit

Unit Description:	Across the unit’s duration, students will create a jingle demonstrating their understanding of how to produce various vocal tone colors in their head and chest voice. Students will understand that vocal tone colors convey expression through singing, speaking, whispering, and shouting using their head and chest voice. Students will learn how a singer produces sound determines vocal tone color. Once students explore various performance and production options the unit culminates in the creation of a short jingle and critique process using a self and peer evaluation scoring rubric.
Unit Generalizations	
Key Generalization:	Vocal tone colors convey expression (i.e., sing, speak, whisper, shout)
Supporting Generalizations:	How a singer produces sound determines vocal tone color.
Considerations	Audio or video recordings may not be possible with school’s technology capacity otherwise students can use phone/tablets and other ways to capture their performances as resources allow.

Performance Assessment: <i>The capstone/summative assessment for this unit.</i>	
Claims: (Key generalization(s) to be mastered and demonstrated through the capstone assessment.)	Vocal tone colors convey expression (i.e., sing, speak, whisper, shout)
Stimulus Material: (Engaging scenario that includes role, audience, goal/outcome and explicitly connects the key generalization)	Your vocal group has been hired to create and sing a jingle for a local candy store like Fuzziwig’s, Russell Stover, and/or Hammond’s Candies. Your jingle will need to share the excitement of a new candy with children between the ages of 3 and 12. The jingle should be at least 4 lines of text and should not be longer than 30 seconds. You can speak, sing, whisper, and/or shout and must use your head voice and chest voice. You will perform your jingle for your class as a “test” audience.
Product/Evidence: (Expected product from students)	Students will write a poem that will be used as the basis for a jingle that rhymes. Once they have at least 2-3 lines written they will explore variations of tone colors and finalize the tune for their composed jingle using. Through the performance of their jingle, students will demonstrate their understanding of head and chest voice and knowledge of tone colors.
Differentiation: (Multiple modes for student expression)	Students may work as individuals, pairs or in small groups Students may produce their final product in the following forms: <ul style="list-style-type: none"> • Live performance • Audio recording • Video recording

Ongoing Discipline-Specific Learning Experiences			
1.	Description:	<p>Performance Preparation Process <i>Within a performance focused unit, the basic process of introduce, rehearse, and perform are ongoing throughout the unit. The various learning experiences underscore the process.</i></p> <p>Introduce – Refers to the pre-experiences needed to create their own composition. As learning progresses, students will be introduced to additional production and performance options.</p> <p>Rehearse – Refers to the steps that occur after introducing initial concepts. Review, practice, revisiting areas that need additional focus will be a recurring process.</p> <p>Perform – Refers to the execution and/or application of work within in the introduction and rehearsal process. This can include the final capstone performance task or other performances demonstrating skill attainment. When a student demonstrates skills in discreet form (such as a single musical concept) or in a full comprehensive form (such as the full performance) they perform as a way to determine understanding. Performing occurs throughout the unit.</p>	<p>Teacher Resources: http://www.hsc.csu.edu.au/music/performance/preparation/performance_prep/performance_prep_gilmore.htm (Performance Preparation (HSC Online))</p> <p>Student Resources: N/A</p>
	Skills:	<p>Introduce – Identify and produce head and chest voice. Discuss, respond, and analyze various music examples.</p> <p>Rehearse – Review, analyze, edit, adjust elements of the performance as needed</p> <p>Perform – Apply, execute, demonstrate skill attainment</p>	<p>Assessment: Introduce – Pre-assess jingle understanding through brainstorming and discussion</p> <p>Rehearse – Rehearsal is formatted to meet student’s range of abilities. Formative assessment and adjustment of text, vocal tone colors, production options, performance options, etc. are found throughout the rehearsal process</p> <p>Perform – Formative assessment such as observation and correction for discreet skill attainment. Summative assessment such as self and peer evaluation rubrics can be used in formal/final performance</p>

Prior Knowledge and Experiences

These ongoing learning experiences build upon a presumed student working knowledge of basic components and purposes of active music listening skills and exploration in singing various songs. Thus there are no learning experiences that introduce this knowledge or this information. Teachers may, however, wish to revisit/reinforce these understandings at the beginning of the unit. Students will also be using poems as a reference for their lyrics. A basic understanding and exploration of short poems is recommended.
