This unit was authored by a team of Colorado educators. The template provided one example of unit design that enabled teacher-authors to organize possible learning experiences, resources, differentiation, and assessments. The unit is intended to support teachers, schools, and districts as they make their own local decisions around the best instructional plans and practices for all students.

### Critical Content:
**My students will Know...**
- The elements of civil discourse include listening and speaking in a respectful manner (SS09-GR.3-S.4-GLE.1-EO.a)
- Examples of geography based problems include where to build a highway, and the impact of natural disasters (SS09-GR.3-S.2-GLE.1-EO.d)
- Multiple perspectives around the same event (SS09-GR.3-S.1-GLE.1-EO.a,c)
- The importance of creating short term financial goals (SS09-GR.3-S.3-GLE.2-EO.a,d,e)*
- Examples of economic and personal rights (SS09-GR.3-S.4-GLE.1-EO.b)

### Key Skills:
**My students will be able to (Do)...**
- Demonstrate how to use civil discourse in a respectful manner (SS09-GR.3-S.4-GLE.1-EO.a)
- Solve geography based problems (SS09-GR.3-S.2-GLE.1-EO.d)
- Compare information from multiple sources recounting the same event. (SS09-GR.3-S.1-GLE.1-EO.a, c)
- Compare factual sources with works of fiction about the same topic (SS09-GR.3-S.1-GLE.1-EO.b, c)
- Create a plan for short-term financial goal, including the steps necessary to reach their short-term goal (SS09-GR.3-S.3-GLE.2-EO.a,d,e)*
- Identify important personal and economic rights and how they relate to each other (SS09-GR.3-S.4-GLE.1-EO.b)

### Critical Language:
Includes the academic and technical vocabulary, semantics, and discourse which are particular to and necessary for accessing a given discipline.  
**EXAMPLE:** A student in Language Arts can demonstrate the ability to apply and comprehend critical language through the following statement: *“Mark Twain exposes the hypocrisy of slavery through the use of satire.”*

* Denotes a connection to Personal Financial Literacy (PFL)
### Unit Description:
This unit centers on personal and community-based economic decision-making. It begins with a focus on students’ individual economic decisions and moves into considerations of the ways in which communities negotiate conflict around economic issues; considering how diverse perspectives contribute to the discussion and resolution of financial decisions. During the 6-8 weeks of the unit, students will examine their own financial planning/choices, respond to primary and secondary sources related to a specific (past) economic decision within their community, and examine the ways in which diverse perspectives in the community make their voices heard during the decision making process. The learning experiences build to a performance assessment that asks students to take a position on a particular proposal with distinct economic ramifications, present that position/perspective to a mock city council, and work with their fellow community members to reach consensus about how best to work together for the betterment of the community.

### Considerations
This unit focuses on the specific community of the authors: Boulder, Co. Though the resources utilized in the unit are often Boulder-specific, the learning experiences and performance assessment are easily adaptable for any community. In addition, this unit presumes that the students have established their own classroom economy (see On-Going Learning Experience #2). This “classroom economy” will be the segue between students’ personal income and finance decisions and the examination of the actual community in which they live.

### Unit Generalizations

#### Key Generalization:
Community members who seek to understand and value diverse perspectives can work collaboratively to address/solve economic problems (such as what is the best way to enhance/maintain economic development)

#### Supporting Generalizations:
- Geographic problems (such as where to build a highway) can be addressed when community members seek to value the rights and responsibilities of self and others
- Analyzing historical sources from various perspectives allows people to understand past decisions and the cost-benefit beliefs and values that informed them
- Sources of income provide opportunities for making decisions about spending money in ways that positively impact the community
- Personal financial decisions about local monetary transactions can contribute to the health/growth of a community

### Performance Assessment: The capstone/summative assessment for this unit.

#### Claims:
(These generalizations are mastered and demonstrated through the performance assessment.)

<table>
<thead>
<tr>
<th>Community members who seek to understand and value diverse perspectives can work collaboratively to address/solve economic problems (such as what is the best way to enhance/maintain economic development)</th>
</tr>
</thead>
</table>

#### Stimulus Material:
(Engaging scenario that includes role, audience, goal/outcome and explicitly connects the key generalization)

You are a member of the (Boulder) community or someone very interested in the economic success of the (Boulder) community. You might, for example, be a (CU) student, a parent, a homeowner, a business person, etc. Recently, a famous company has proposed construction of a large box store (e.g., a Wal-Mart Supercenter or Super Target) in downtown (Boulder). As a community member/interested party, you have a very strong opinion about the construction and location of this proposed store. You will present your opinion at the next upcoming (Boulder) city council meeting. And while you do believe strongly that your position is correct, you know that the city council (and other community members) might not agree with you. Whatever the outcome, you will work with your fellow community members to find ways to collaboratively make the best of the city council’s decision for the (Boulder) community.
Colorado Teacher-Authored Sample Instructional Unit

Product/Evidence: (Expected product from students)
Students will create written outlines of the perspective they will present to the city council (teachers may have students choose perspectives or randomly assign them). This outline should anticipate some questions others might pose, as the students will orally present their statements to a mock city council (perhaps made up of middle or high school students). Finally, after the city council’s “decision” students will work collaboratively to create a consensus document that will address issues by the proponents of the “non-chosen” option.

Differentiation: (Multiple modes for student expression)
Instead of individual presentations, students may form coalitions to construct a group presentation. Groups could be comprised of:
- Presenter
- Researcher
- Graphic artist (to visually depict the group’s position/argument)

Texts for independent reading or for class read aloud to support the content

### Prior Knowledge and Experiences
This unit presumes students have examined issues around community (roles, responsibilities, etc.) and have explored multiple definitions of community. They should have also had some experiences with historical sources.

### Learning Experiences # 1 – 13
### Instructional Timeframe: Teacher Determined

#### Learning Experience # 1
The teacher may facilitate a discussion about kids’ sources of income so that students can begin to connect work and life events to personal earnings and to consider differences in money generated/earned by students.

### Generalization Connection(s):
Sources of income provide opportunities for making decisions about spending money in ways that positively impact the community

### Assessment:
Students will complete a graphic organizer documenting all of their unique sources of income and their origins.
### Colorado Teacher-Authorized Sample Instructional Unit

#### Critical Content:
- Different sources (and origins) of income

#### Key Skills:
- Students will be able to distinguish between different sources of income and how they are earned

#### Critical Language:
- Income, earnings, generate, recognize

#### Learning Experience # 2

The teacher may model a financial plan to purchase a desired object (e.g., iPad, classroom library books) so that students can identify the benefits and consequences of saving and spending (opportunity costs).

#### Generalization Connection(s):
- Sources of income provide opportunities for making decisions about spending money in ways that positively impact the community

### Learning Experience # 3

The teacher may bring in (appropriate) examples of his/her purchase history so that students can critically distinguish their teacher’s needs and wants and begin to critique their own personal spending choices.

**Critical Content:**
- The importance of creating (personal) short term financial goals

**Key Skills:**
- Create a plan for short-term financial goal, including the steps necessary to reach their short-term goal

**Critical Language:**
- Benefits, consequences, savings, spending, compare, examine, setting goals, problem solving

**Assessment:**
- Students will write a reflection explaining their personal spending choices in the classroom economy and create a financial plan for purchasing something in said economy.

**Differentiation:**
- (Multiple means for students to access content and multiple modes for student to express understanding.)

**Extensions for depth and complexity:**

</table>
Critical Content: The importance of creating (personal) short term financial goals

Key Skills: Students will be able to distinguish between financial wants and needs

Critical Language: Needs and wants, purchase history, identify, recognize, financial responsibility, analyze

Learning Experience # 4

The teacher may bring in local business owner(s) to engage students in a discussion about the effects of “buying local” so that students can begin to articulate the benefits and consequences of spending in their community.

Generalization Connection(s):
Sources of income provide opportunities for making decisions about spending money in ways that positively impact the community. Personal financial decisions about local monetary transactions can contribute to the health/growth of a community.

Teacher Resources:
- [http://www.boulderdowntown.com/business](http://www.boulderdowntown.com/business) (Learn about why it is important to invest in the Downtown, Boulder community)
- [http://www.boulderiba.org/stories.html](http://www.boulderiba.org/stories.html) (Different local business featured in the 'spotlight' section. Also gives access to a local business directory with start up stories and contact information)

- *One Hen: How One Small Loan Made a Big Difference* (Lexile level 810)

Assessment:
Students will create interview questions designed to help them understand how their parents make purchasing decisions based on their local and/or global communities. If using a classroom economy, teachers may invite students to include how their purchases do or do not benefit their classroom community.

Differentiation:
Students may be provided with a few example questions to ask their parents about their spending habits. Some examples may include asking the parent, approximately, how much of their income goes into savings each month, or how much of their income is spent on wants as opposed to needs. Teachers can refer to the [questionnaire template](http://wordtemplate.net/questionnaire-template.html) (Example of template to create your own questionnaire).

Students may validate, through written format, their personal spending choices in the classroom economy as being either beneficial or non-beneficial to their classroom community.

Students may choose from different communities in Colorado and research those communities (economy): [http://www.cityofthornton.net/Pages/default.aspx](http://www.cityofthornton.net/Pages/default.aspx) [http://www.gjc.org/](http://www.gjc.org/) [http://www.gunnison-co.com/](http://www.gunnison-co.com/) [http://www.pueblo.us/](http://www.pueblo.us/) [http://trinidad.co.gov/](http://trinidad.co.gov/) | Students may, based on their research, propose a list of needs and wants unique to this community. Students may also document the ways in which this community encourages local spending |

Critical Content:  
- Examples of economic and personal rights

Key Skills:  
- Understand the benefit and consequence of supporting a local, business, or economic community  
- Identify important personal and economic rights and how they relate to each other

Critical Language:  
History, entrepreneurial thinking, financial responsibility, community, local, purchases, examine, small business

Learning Experience # 5

The teacher may bring in an example of a recent community (economic/financial) decision so that students can understand how the community attempts to addresses the wants and needs of its citizens.

Generalization Connection(s):  
Community members who seek to understand and value diverse perspectives can work collaboratively to address/solve economic problems (such as what is the best way to enhance/maintain economic development). Sources of income provide opportunities for making decisions about spending money in ways that positively impact the community. Personal financial decisions about local monetary transactions can contribute to the health/growth of a community.

- Wants and need, identify, recognize, compare, examine, cost and benefits, financial history, historical sources, respect

### Learning Experience # 6

The teacher may bring in resources (articles, video clips, etc.) about a particular historic (economic) development issue (e.g., Open Space Laws in Boulder County) so that students can understand the origins of and the competing community values/concerns that often surround economic questions/issues.

### Generalization Connection(s):

Geographic problems (such as where to build a highway) can be addressed when community members seek to value the rights and responsibilities of self and others

Community members who seek to understand and value diverse perspectives can work collaboratively to address/solve economic problems (such as what is the best way to enhance/maintain economic development)

**Learning Experience # 8**

The teacher may utilize resources (articles, video clips, etc.) immediate in time to a particular historic (economic) decision (e.g., Open Space Laws in Boulder County) so that students can critically examine how the community dealt with responses and (possible) actions taken by community members critical of the outcome.

**Generalization Connection(s):**
- Geographic problems (such as where to build a highway) can be addressed when community members seek to value the rights and responsibilities of self and others
- Community members who seek to understand and value diverse perspectives can work collaboratively to address/solve economic problems (such as what is the best way to enhance/maintain economic development)

### Learning Experience # 9

The teacher may brainstorm with the students the connections between current community life and a particular historic (economic) decision (e.g., Open Space Laws in Boulder County) so that students can analyze the long-term positive and negative consequences of the outcome.

#### Generalization Connection(s):
- Geographic problems (such as where to build a highway) can be addressed when community members seek to value the rights and responsibilities of self and others.
- Community members who seek to understand and value diverse perspectives can work collaboratively to address/solve economic problems (such as how best to enhance/maintain economic development).

#### Student Resources:
- [http://www.timetoast.com/](http://www.timetoast.com/) (Timeline creation tool)

#### Assessment:
- Students will create a graphic organizer listing the persisting (positive/negative) effects of the decision (Open Space Laws in Boulder County) and will create a timeline of the history of this issue.

#### Differentiation:
- **Access (Resources and/or Process):**
  - Students may be provided a graphic organizer with some long-term effects filled in
  - [http://www.timetoast.com/](http://www.timetoast.com/) (Timeline creation tool)

## Learning Experience #10

The teacher may bring in different (agreed upon) facts about a particular historic (economic) decision (e.g., Open Space Laws in Boulder County) so that students can critically analyze which facts were most compelling for different stakeholders and their points of view on this contentious issue.

### Generalization Connection(s):

- Geographic problems (such as where to build a highway) can be addressed when community members seek to value the rights and responsibilities of self and others
- Community members who seek to understand and value diverse perspectives can work collaboratively to address/solve economic problems (such as what is the best way to enhance/maintain economic development)

### Learning Experience #11

The teacher may engage students in a discussion about a (current) contentious topic in the classroom or school (e.g., school dress code, allotted recess time) so that students can examine diverse perspectives and the logical reasons, facts, and evidence upon which they are based.

**Generalization Connection(s):**
Community members who seek to understand and value diverse perspectives can work collaboratively to address/solve economic problems (such as what is the best way to enhance/maintain economic development)
