Colorado Teacher-Authored Sample Instructional Unit

Unit Description: As nations expand, various cultures and ways of life merge leading to both and enrichment of cultures as well as conflict. This unit focuses on the cultural interactions among peoples brought about by the westward expansion of the United States and how those interactions led to both cooperation and conflict. Students will learn about the interactions among peoples such as settlers, Native Americans, Mexicans, etc., as well as the governmental policies regarding resource allocation/distribution during the expansion of the United States from 1800-1900.

Considerations: Critical content may appear in more than one learning experience because of the focus on particular concepts.

Unit Generalizations

Key Generalization: The movement of people and ideas influences cultural diffusion by both enriching a culture and increasing social tensions

Supporting Generalizations:
- Expansion and human settlement can lead to conflict and/or cooperation over the allocation and use of scarce resources
- Differing perspectives on movement into land occupied by native peoples can lead to conflicts and consequences regarding who has the legitimacy to make policy decisions about land ownership/usage
- Successful settlement of varying regions necessitates interdependence and trade

Performance Assessment: The capstone/summative assessment for this unit.

Claims: The movement of people and ideas influences cultural diffusion by both enriching a culture and increasing social tensions

Stimulus Material: You are a newspaper journalist for the Weekly Gazette, a brand new newspaper in the Colorado territory. You and your fellow journalists are to publish a special edition of the newspaper focusing on the enrichment of cultures and the social tensions initiated by westward expansion. Your newspaper should include articles representing the multiple perspectives of Native Americans, business entrepreneurs, slaves, Mexicans, explorers, settlers, and federal officials.

Product/Evidence: Students will create a special edition of a local newspaper including all the usual elements of a newspaper such as editorials, news articles, advertisements, photos, political cartoons, obituaries, birth announcements, a society page, a business section, a sports section, etc. This assessment will necessitate the creation of a rubric with a set of criteria to determine the degree to which a student’s performance meets the expectations of the summative/capstone assessment. Here is an overview of the steps in developing a performance assessment rubric.

Differentiation: Each student may be required to construct one article; however, students then may be given various roles on the newspaper such as managing editor, graphic artist, section editor, layout manager, illustrator, etc. In addition, students may be provided with guided writing graphic organizers (http://www.readwritethink.org/search/?resource_type=18&grade=16)
