## CDE Annual Inspection/Preventive Maintenance Checklist

## ALL ITEMS ON THIS CHECKLIST ARE MANDATORY. USE OF THIS SPECIFIC CHECKLIST IS NOT MANDATORY.

Inspection S	ite:		· · · · · · · · · · · · · · · · · · ·	
Model Year:	Body:	Chassis:	License Plate:	
Inspector Nu	ımber(s):	Inspector signature(s):_		
Previous Ins	pection Odometer:	Date:	Current Inspection Odometer:	
Date Inspect	ion Started:	Date Inspection (	Completed: Unit #	
Annual:	PM: *	not required for PM In	spector initials required only for multiple in	spectors
Codes Required	Α.	Road Test I		Inspect. Initials
	1. Check driver seat	and seat belt for proper ope	ration and condition	
	2. Check for steering play and binding. Steering column components			
	3. Check operation of	of instruments/gauges, indica	ator lights, warning systems, horns	
	4. Check windshield, mirrors, driver visor and hardware			
	5. Check windshield wiper/washer for proper operation			
	6. Check air system build time (depleted to fully charged) Maximum of 4 minutes			
	7. Check retarder indicator lights, proper function			
		<u> </u>	outPSI	
	9. Air: Check with fully charged system(full brake application) Observe gauge loss PSI 10. Check service brake: pedal free travel, adequate pedal height and reserve, ABS, booster			
	operation (hydra	aulic) and brake action/opera	ation, wear indicators. (hydraulic and air)	
	and buzzer actua	ite at PSI Park b		
	12. Check information on registration form: Vin #, License Plate # for consistency			
	13. Pre-inspection R			
Codes	В.	Under Hood		Initials
	-		cable, accelerator linkage and return spring	
	-	fuel, cooling and lubricant li , signs of chafing, kinking, de	ines, fitting, electrical wiring for proper eterioration or leaks	
	3. Inspect exhaust sy	ystem components, leakage,	mounting, shields	
	4. Inspect compressoneeded	or, inspect/replace air filter	and/or air compressor filter element as	
	5. Check windshield	washer fluid reservoir for lea	aks, mounting	
	6. Inspect radiator n	nounting, core, cap, water p	ump, fan, clamps, hoses and shutters test and	
	record coolant fre		30F minimum)	
			nd pulleys for condition and adjust as required	
		, condition, and inspect for l		
		olumn, shaft, clamp bolts, a		
		<u> </u>	nts, proper mounting, condition	
			ion, clarity, and proper level (hydraulic)	
Codes	C.	Interior In	•	Initials
			, and electrical accessories for operation	
	•		) inspect window guides and latches	
	~ ·		buzzer), interlock, operation decals	
	<ul><li>4. Emergency equip</li></ul>	ment: fire extinguisher, first	aid kit, belt cutter, body fluid cleanup kit	

Codes: 1 = Inspected 2 = Adjusted 3 = Repaired 4 = Replaced 5 = Rebuilt 6 = Lubricated 7 = N/A

5. Check triangle reflectors, box mounting and seal

	6. Check video system, PA system, 2-way radio for operation, child reminder				
	7. Inspect seats, cushions, barriers, step well, hand rails, flip seats				
	8. Check for and inspect special needs equipment, securements, and accessories				
	9. Inspect floor covering and trim, bulk head, service door				
	10. Inspect interior for sharp projections, and securement of accessories				
Codes	D. Under Vehicle Inspection				
Codes	1. Inspect steering system: shaft, lock bolts, nuts, stops-looseness, damage, play, binding,				
	clamping, signs of chafing kinking, deterioration or leaks				
	Inspect front and rear suspension, springs, cross members, shackles, shocks, and frame brackets for looseness and damage				
	3. Inspect air ride suspension system and components if applicable				
	4. Inspect axle pinion and transmission flange for looseness, inspect propeller shaft for damage				
	5. Inspect u-joints, carrier bearings and guards for excessive wear or damage and visually				
	inspect differential for leakage, mounting, fluid level and pinion cage bolts  6. Check air tanks/reservoirs, drier for mounting, moisture release valve and heater operation  7. Inspect transmission: linkage, excessive leakage, change fluid and filters as needed  8. Inspect fuel system, fuel tank, mounting, cage, components, lines, leaks  9. Inspect body to frame clamps, insulators and cowl hold-down bolts for looseness  10. Inspect engine and transmission mounts for looseness or deterioration				
	11. Inspect all brake, fuel, cooling and lubricant lines, fitting, electrical wiring for proper				
	routing, clamping, signs of chafing, kinking, deterioration or leaks				
	12. Optional equipment: auto-chains, sanders, coolant heaters, radio (adjustment, leaks and				
	operation)				
	<ul> <li>13. Inspect exhaust system for leakage or looseness and proper supports, shields if required</li> <li>14. Clutch condition and components</li> <li>15. Driveline retarder components, mounting, wiring</li> <li>16. Inspect air brake chambers, mounting, caging bolt dust cover/cap</li> </ul>				
C					
Codes	E. Around Vehicle Inspection				
	1. Body condition, bumpers, tow hooks, numbering, lettering (damage)				
	2. Check exit door operation, adjustments and seals				
	3. Check compartment doors, hinges and latches  4. Check all exterior lights, mirrors, and reflectors (eneration (visible))				
	4. Check all exterior lights, mirrors, and reflectors (operation/visible)				
	5. Inspect batteries and tie downs, test batteries				
	6. Check operation and condition of stop arm				
	7. Inspect lift door, lift operation, warning system (if applicable) and symbols				
	8. Manual slack adjuster Automatic slack adjuster Inspect slack adjusters and <b>Record Brake Stroke</b> (air brakes/applied method)				
	LF: RF: LR: RR: (before disassembly)				
	LF: RF: LR: (after assembly)				
	9. Tires: condition, tread depth (minimum reading), matching				
	10. Tire PSLLE: RF: LRO: LRI: RRO: RRI: (before)				
	Tire PSI LF: RF: LRO: LRI: RRO: RRI: (after)				
	11. Tread Depth LF:/32 RF:/32 LRO:/32 LRI:/32 RRO/32 RRI:/32				
	12. Wheels: size, width, type, valve stems, studs, lug nuts				
*	13. Remove wheels inspect linings, and brake components				
	14. Inspect front and rear wheel seal areas for any leakage (oil or brake fluid)				
	15. Check hydraulic: Wheel cylinders, calipers, valves, lines, drums/rotors				
*	16. Record brake shoe/pad lining readings (minimum reading)				
	LF:/32 RF:/32 LR:/32 RR:/32				
	LF:/32 RF:/32 LR:/32 RR:/32				
*	17. Brake drum/rotor reading Manufacturer Spec: Front:Rear: LF: RR: RR: (reading at previous annual)				
	LF: RF: LR: RR: (reading at previous annual)				
4	LF: RF: LR: RR: (current reading)	<del>                                     </del>			
*	18. Air disc brake pad to rotor clearance    LF:    KF:    LR:    KK:	1			
	19. Post inspection road test				

Codes: 1 = Inspected 2 = Adjusted 3 = Repaired 4 = Replaced 5 = Rebuilt 6 = Lubricated 7 = N/A
