

District QC Rubric

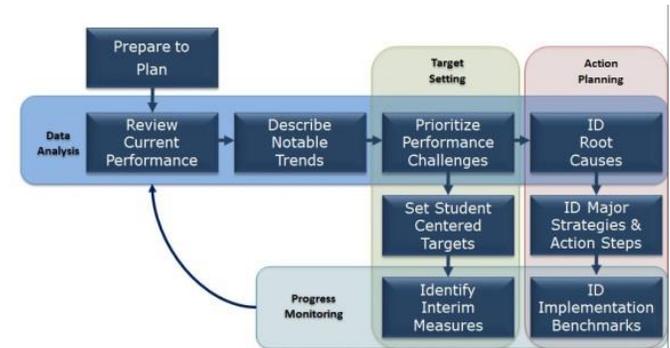

Quality Criteria Rubric for Evaluating District Unified Improvement Plans (UIPs)

Overview

The Unified Improvement Plan (UIP) is intended to provide districts and schools with a consistent format to capture improvement planning efforts that streamline state and federal planning requirements and increase student learning. CDE developed the Quality Criteria rubric to offer guidance for creating high quality improvement plans and to establish the criteria for state and local review of district level UIPs, especially for districts on the accountability clock (i.e., Priority Improvement, Turnaround). The criteria in this document sit in the “meets expectation” column of the rubric.

General Directions

- Access the pre-populated report through the UIP Online System (<https://cdeapps.cde.state.co.us/index.html>) to determine the district’s unique accountability and program requirements.
- Examine the “Big Five” Guiding Questions, note their alignment with the UIP and determine which they need to address, based on previous CDE feedback (if any).
- Use the Meets Expectations and Meets Expectations at a High Level columns to guide the process.

The Big Five Guiding Questions

The “Big Five” are five guiding questions that outline the major concepts of the improvement planning process. The questions build upon each other and facilitate alignment across the entire plan. Does the plan:

- 1 Investigate the most critical performance areas and prioritize the most urgent **performance challenges**?
- 2 Identify **root causes** that explain the magnitude of the performance challenges?
- 3 Identify evidence-based **major improvement strategies** that have likelihood to eliminate the root causes?
- 4 Present a well-designed **action plan** for implementing the major improvement strategies to bring about dramatic improvement?
- 5 Include elements that effectively **monitor** the impact and **progress** of the action plan?

Structure

Organized by the “Big Five,” the various plan elements are further defined and include questions that if addressed, *lead to* a well-developed improvement plan. Most of these questions blend best practice and accountability requirements. Districts should aim for meeting the criteria in the two far right columns (Meets Expectations and Meets Expectations at a High Level). The most effective plans build a case that remains coherent across each section of the plan, rather than simply addressing each section independently. Those requirements that only apply to some districts are labeled separately at the end of each section. Greyed out sections will not be reviewed by CDE during the current school year.
