Data Tools & Reports

Accountability & Data Analysis Unit

The purpose of this fact sheet is to provide a brief overview of the data visualization tools and resources that are maintained by the Accountability & Data Analysis Unit to support the work of education stakeholders.

Tools & Reports for Individual Schools and Districts

http://www.cde.state.co.us/accountability/schoolviewdataandresults

Performance Snapshot

The Performance Snapshot provides an overview of key elements from the most recent District and School Performance Framework Reports and Unified Improvement Plans. This report is primarily designed for users with existing knowledge of the performance frameworks and improvement planning process, but provides a significant amount of explanatory information that may make it accessible to broader audiences.

School and District Dashboards

The Dashboards are made up of a suite of reports that have been designed to support improvement planning efforts by districts and schools. The dashboards allow users to interact with graphs and tables showing demographic information along with performance data and ratings generated under the state accountability system.

Colorado Growth Model Reports

Growth model reports provide access to Academic Growth metrics related to the CMAS English Language Arts & Math and Colorado PSAT/SAT assessments. The reports present metrics for a variety of grade levels and student groups and enable comparisons between schools and districts across the state.
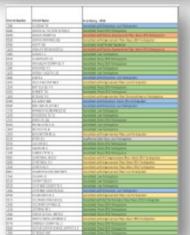

Performance Frameworks Reports and UIPs

District and School Performance Frameworks are used to determine performance ratings under the state accountability system. Unified Improvement Plans (UIPs) document the strategies that districts and schools implement as part of the continuous improvement cycle. Go here to access reports for individual districts and schools in PDF format.

Tools and Reports to Access Statewide Datasets

http://www.cde.state.co.us/accountability/schoolviewdataandresults

Accountability Data Explorer NEW

Go here to access a repository of files containing performance framework information for all schools and districts in the state. Files include spreadsheets with current and historical performance framework results, along with copies of PowerPoint presentations and other reports presented to the State Board of Education.

Accountability Data Files

Go here to access a repository of files containing performance framework information for all schools and districts in the state. Files include spreadsheets with current and historical performance framework results, along with copies of PowerPoint presentations and other reports presented to the State Board of Education.
